

## EXOPOLITICS TV – Interview Part 1

Hosts: Alfred Lambremont Webre

Guest: Tamarinda Maassen

Translator: Oana Dembele

**Tamarinda Maassen: Agartha is not a place...  
It's a space.**

Special note to our readers:

The following interview was conducted on July 20th, 2017 with Tamarinda Maassen, Knight of the Order of the Warrior Knights of Agartha, and Ambassador of Agartha.

*\*Please know that the echo in the background is a direct reaction to the vibration in Tamarinda's powerful electromagnetic field.*

*\*\*Translator's note – We use a verbatim translation for all our interviews and presentations in order to keep the Ambassador's message intact and untainted.*

Alfred: Welcome back. I am Alfred Lambremont Webre and today we have an extraordinary program coming to

---

us from Bucharest Romania. We have Tamarinda Maassen, the Ambassador of Agartha, Master teacher of the Ancient School of Wisdom – SOLOMONARI - RAMA-NIA VALAHIA (Romania) - Kingdom of Agartha - Inner Earth Entrance. And her valued assistant, Oana Dembele. Did I tell your position correctly, Oana?

**Oana:** Yes, this is correct. Hello to everybody!

**Tamarinda:** Hello!

**Alfred:** Tamarinda has graciously agreed for this interview because on August 25<sup>th</sup> to 27<sup>th</sup>, she will be coming to New York for the Agartha to Humanity World Symposium and you can find out more about that at [www.agarthaworldsymposium.com](http://www.agarthaworldsymposium.com). She says there: “We have decided at this point in time in humanity’s history to engage in a mutual diplomatic dialog with the human population - directly - about our culture, technology, and spiritual insights to assist you for the coming changes you will soon experience. In addition to our presentations at Symposium there will be a questions and answer sessions with the public. All questions will be answered.” So the purpose of this interview is sort of to get some pre-questions addressed

to Tamarinda and to really give a larger context. That's just my introduction. Would you like to translate that?

**Oana:** Yes, sure. Thank you!

**Tamarinda:** I understand.

**Alfred:** I just want to get to some basic questions really for the benefit of our audience and my benefit because this is an introduction for all of us including myself. The first question is this: "What is the Inner Earth Kingdom of Agartha?" ...If you could please explain that for us?

**Tamarinda:** Oana (translating): She has been waiting for such a long time to answer to this question, because people know about Agartha from stories and legends or from the present information that is presented and transmitted through Google. The human mind is always prepared to associate its way of thinking and to adapt this anywhere in the Universe. Agartha is not a place. It is a space. And this space is from a quantum point of view, outside of 3D, the tridimensional space. Same as this reality, which is a 3D reality it exists because people and their consciousnesses manifest [it], this is how Agartha also exists. A more simple example

is like this: each human, each human being has a physical body. Inside themselves [inside the humans], in their consciousness, there is an entire Universe. The same happens with planet Earth. Inside the planet exists a Universe. [...] As the things which are inside our mind they become reality by taking them outside, the same Inner Earth is bigger inside than it is the outside of the Earth. We will exclude the fact that in this reality where we speak and where we exist now [this reality] is a reality which is created as an illusion, illusory. [So] Agartha is a part of a real space that is not a part of this illusion. The space “Agartha” existed even before the humans existed on Earth. Agartha has millions and millions of years. The old legends, the myths used to say that exists a realm which is inside the planet, inside the Earth. Yes, this is true. This realm exists. The reality from Inner Earth, which exists in Inner Earth, can be seen above, on top of the heads of the humans. Meaning that the Earth has the reality here, the 3D reality, on the outside. And Agartha is inside. And the reality you can see it above. This is the mirror reaction [effect]. Agartha exists inside Earth and it always existed there and what exists outside the Earth is its mirror. The only thing is that the beings that live on the outside they had restrictions, they’ve

been forbidden, they had restrictions in finding out and knowing what is beyond the mirror.

**Oana:** She would love to say more but she dares to say that more about this topic will be said at the Symposium.

**Tamarinda:** Oana (translating): She also wants to add that Agartha, which is a continent of a Paradise realm, [of paradisiac consciousness], this Paradise, yes, exists. In this space exists the entire Creation of the Universe that humans live in. You cannot enter Agartha by accident. Because those from Agartha know that the mind has to be suitable with the space from Agartha. And this is one of the reasons why Tamarinda is trying to help people to bring their mind to a consciousness level so they can access this realm of Agartha [and other existing spaces].

**Alfred:** In the surface world, there are many prophecies of the New Earth. Is Agartha almost like the New Earth?

**Tamarinda:** Oana (translating): Let's say that Earth is a living being. Everybody knows that it is a living being. She is pregnant now. She is pregnant with a new Earth. And when the water will break, at birth, a new Earth will come out. And for this reason people have to prepare their mind also.

**Alfred:** So these are the changes, when you say "the coming changes you will soon experience" that's the birth of the new Earth, the birth of the living Earth, the birth of Agartha that we all believe in?

**Tamarinda:** Oana (translating): The good news is that the Earth will not disappear. The Earth will change and also people have to change. With [on] the new Earth, will remain only the people which will get to have the attitude of friendship. And the attitude of friendship is the unconditional love which people from Earth know about.

**Alfred:** Now, in that same thing, they talk on the surface about the separation of worlds. And that some people that are awakening will go into the New World

but other people that are still not awakened will stay with the old Earth. Is that what will happen here?

**Tamarinda:** Oana (translating): What will happen is like this: There are people that cannot live without their past. They only find themselves in their actions from the past. This is what the Old Earth means. This means that it's a limited attitude. The moment when people will not be attached anymore to their own image then they will all be equals. Those which will not succeed doing this, they won't be able to go further because it will be very difficult for them. These kinds of beings are those beings that are not able to accept anything new.

They can't accept anything that is new to them. They are repeating only what they know and they are copying the others. Some people used to say to Tamarinda that this means they [would] have to be a little crazy. Yes, that's true. You have to be a little crazy.

In Agartha, the beings do not take anything personal. Over there, the personality does not exist. Over there exist only light individuals which have individuality and they are extraordinary. This means that each one of them is equally extraordinary. And this is what it

means that there is a separation of consciousness and those which will succeed to overpass this separation [this attitude], they will go further.

Tamarinda could see for some people, in their future, she could see the deaths of these people and these deaths are very tragic. Many accidents, many diseases...Because this [fact] says that their mind stopped and also that means that their destiny stopped. Everywhere in the world, in the media, in the news, they don't give you an exact number; they don't say about how many people are disappearing each day. It is possible that now only few people [still] exist in 3D. But we will talk about this at the Symposium.

**Alfred:** Right...You talk about the people that are in Agartha now. Are they the Atlans [Atlanteans] the survivors of Atlantis?

**Tamarinda:** Oana (translating): Yes, Atlanteans exist too.

**Alfred:** So they are the survivors of Atlantis?

**Tamarinda:** Oana (translating): Yes, the Atlanteans are the ones with technology. They always had this thing for technology and even now they hold this pleasure and joy to work with technology.

**Alfred:** Yes, because it is said that...there are researchers that say that the Atlans [Atlanteans] who are in Agartha, they don't have the reptilian brain. They only have the mammalian brain and the neocortex. When the Homo Sapiens Sapiens on the surface have a three-part brain: reptilian, mammalian and neocortex.

**Tamarinda:** Oana (translating): As human beings, the Atlanteans have the same DNA as the humans had when they had been modified [genetically]. The modification of the DNA took place before the Atlanteans. The reptilian brain represents the most performant brain. The reptilian brain is the device that knows everything that happens in the Universe.

**Alfred:** So the Atlans that are in Agartha they are like the surface humans?

**Tamarinda:** Oana (translating): Yes, they have the same DNA as the humans from the surface. The only difference is that they don't use the so-called personality. They use only the subconscious and superconscious. The conscious mind is used only by the humans at the surface, on the outside of the Earth. This conscious mind builds the personality for each individual depending on the environment where that person lives and the education received. It's building its personality. This is how here on the surface of the Earth the personalities are been built and they are built by education. In Agartha, they are built by wisdom.

**Alfred:** What sort of relationship does the Inner Earth Kingdom, the Agarthans maintain with the surface Earth Population?

**Tamarinda:** Oana (translating): Those from Agartha consider those from the surface as being their brothers,

brothers that have done an experiment that those from Agartha did not do. It is an experiment of a mind which reaches a very low frequency until it gets to destruction. And this experiment is done only by the beings which are at the surface of the Earth. Those from Inner Earth same as those from other Universes, they are all waiting this experiment of destruction to end. And after this experiment is finished, everything will get to the point where a new civilization will start.

**Alfred:** Is there a traffic now from the surface Earth to Agartha back and forth?

**Tamarinda:** Oana (translating): Agartha receives information from the surface whenever Agartha wishes. But no interference is being done because Agartha has respect for the humans which have to do the experiment to the end. The final experiment means to raise the frequency from destruction to being reborn again [rebirth].

This is why, Tamarinda saw here on Earth that there are many beings which say they want to ascend, they

get together, they meditate together... The only thing is that they do not have the right guidance to do it.

**Alfred:** What are the types of experiments that are going on at this time?

**Tamarinda:** Oana (translating): Aggression and total destruction.

**Alfred:** By whom?

**Tamarinda:** Oana (translating): This reality is created by the humans from this reality. It is people's creation; their own creation and people have to change this creation of theirs.

**Alfred:** So what you are saying is that the surface population is creating experiments that are directed at destruction of Agartha?

**Tamarinda:** Oana (translating): Some of them yes, may direct their experiments of destruction towards Agartha because this is the predominance of their consciousness. So, for understanding better... People are destructive themselves, in their way of being, in their nature. First, they destroy everything they love. Because inside them, their consciousness is vibrating as the frequency of destruction. This reality is built like a software. The software now is getting to an end. Somebody is winning and somebody is losing. And they are winning [only] those who understood the game.

**Alfred:** So is moving from duality consciousness which is “I win you lose” to unity consciousness which is we are one?

**Tamarinda:** Oana (translating): Exactly. It is called altruism. Altruism. When people will be more altruistic, they will go further. The only thing is that destruction is inserted so deep, that deep that it gets inside the families, even inside the families exists destruction. Between the parents and the children...

**Alfred:** So what factors are going to expel, what factors will bring in the new consciousness?

**Tamarinda:** Oana (translating): Only people can fix this and solve this. People and their own choices. When they will not want to live anymore into a common consciousness and they will desire to be geniuses, each one will have a brilliant idea, an extraordinary idea so they will not live into suffering anymore, they will live in happiness. Tamarinda already met people that were living in misery, [having financial difficulties] they were very poor and living very hard and they received a [brilliant] idea and now they are living better and very happy. And their life changed.

**Alfred:** I understand what you are saying about Agartha being a space and not a place. In the same time, there are all sorts of news about Antarctica, other extraterrestrial in Inner Earth, Reptilians, positive extraterrestrials, about Secret Space Programs, about the 3<sup>rd</sup> Reich, the Nazis... Can you talk about this?

**Tamarinda:** Oana (translating): Tamarinda says she will try to talk about this and she hopes she will not [reveal] an information that will turn against her.

**Alfred:** If you don't want to talk about it is fine. I don't want to get you off track.

**Oana** (translating): No, she will try to speak in more simple words.

**Tamarinda:** Oana (translating): This reality has already been created and manifested until the end [it is known already what will happen to it]. The decision was taken by some Supreme Beings. It is said that for example, the birth of Hitler was expected by the Tibetans. He was chased and traced [watched over] even since before he was conceived by his mother. At one point, when Hitler was 19-20 years old, he was living on a [certain] street, in Wien at a distance of only few blocks away from Stalin. Five more VIPs, future presidents used to live on the same street but only few blocks distance. All of them were traced and [watched over]. Hitler especially used to have occult interests. Because Hitler represented the so-called cancer of humanity. And the

Tibetan monks took care of the fact of concentrating this cancer of humanity [this disease of destruction] in one single being, one single person. Hitler was always surrounded by seven Tibetan monks. Hitler was searching for Ba Cauca. Ba Cauca does not exist in Tibet. Ba Cauca exists in Romania. It is called Bacau and it's an entrance into Inner Earth. Hitler used to talk about Aryans. He knew about Hyperboreans. He knew that in Romania, in our mountains, the Hyperboreans used to live. Only that these intelligent beings, the Hyperboreans, they sent him to Tibet. And he was supervised until the moment he died alone. Same as the other future presidents.

They [the supreme beings] supervised that what has been manifested to be taken to the end, to go to an end. Antarctica is the place where Hitler wanted to enter through and live there. The King of Agartha knew that the Germans are not Hitler. The German population was the first population that was put into the [concentration camps]. So the first people that were killed in these [concentration camps] were the Germans which did not want to join Hitler's party. For this reason, he even killed some of his very good partners [collaborators].

Hitler received from the Tibetans the first mobile phone with incorporated camera in 1940. It was an unknown technology in those times. And Hitler was very happy because he said he will create the television which will create and [construct] monsters from home. So just staying home and watch TV and nobody [the people] will do anything, but staying home and watch TV and Hitler would create monsters.

Tamarinda will go back now to Antarctica topic...In the first area, at the entrance of Inner Earth, the very near area at the entrance, there are [over] four million Germans. Those are the beings, the Germans, that the King of Agartha agreed to let them live there, because they were those that Hitler wanted to kill and exterminate. And he [King of Agartha] accepted them inside. The entrances into Inner Earth are always open. But the entrances are closed for those that want to destroy. Antarctica opens in connection with Bucegi Mountains and Alaska. When in Bucegi Mountains the Holographic Library will open and will connect all of them, a huge portal will open up in the Universe. This is where Hitler wanted to reach. To conquer the Universe. Even though Hitler was in Aldebaran.

**Alfred:** Thank you. That's quite a dissertation. I am sure we all go back and we will begin to study and reformulate our current understandings. Thank you!

**Tamarinda:** Oana (translating): There are many things that could change the world towards truth. Just that there were already too many people that said and say so many things which are not true that you cannot distinguish what is true from what is not true. And there are things that Tamarinda could not say because they won't be able to be understood. These things she will be able to say to those that will come to the School of the Mind [the Ancient School of Wisdom].

**Alfred:** Thank you!
