

**Q:** Knowing that the affiliated planets of the Andromeda Council took out many bases on Earth's moon, who/what is left on the Moon and in what capacity? Any bases? Are there 3D or 4D beings? Are these beings benevolent? That is to say, are all the bad guys gone? [*see answer below from the Commander of the Andromeda Council biospheres*]

**ANSWER:**

note: for those people who would like to see a visual representation of a mapped out version of the far side of the Moon, as provided by USGS satellites, please go to -

Here is a list of bases that **used to exist** on the back side of the Moon, from the top to the bottom, as provided by the commander of the primary Andromeda Council biosphere:

***"This is the Commander of the Andromeda Council biospheres. We had several ongoing battles with these moon occupied bases during the war in space. We rounded up the Reptilians & Greys, and their various Earth elite people at the end of this war. The Reptilians & Greys were taken through a stargate as planned & sent to the outer regions of the Universe to fight among themselves. And they cannot come back through the stargate which has, in essence, a secret code 'lockout'. Unfortunately, many good 3<sup>rd</sup> dimensional people, humans from Earth &***

*Mars; as well as human/reptilian mixed people from both Orion & the Sirius B star system, whose external look is human, but their genetic core is reptilian... they were killed on both sides due to this war.*

*We are saddened by the fact that many of our own 3D comrades from some of our own aligned planets were killed, as well as those of the abducted people who were under mastermind control by the Reptilians & Greys.*

***As for the Elite Earth people who have joined them as a contractual agreement between these people and the Reptilian/Grey group, they were given the choice to:***

*a) return to Earth with the memory wiped clean ==> specifically of their connection with the Reptilians & Greys,*

***OR,***

*b) remain on the Moon base to work with people affiliated with us in developing technology for the good of the Universe, allow our Medical team work with them to heal their minds of their occupation with the Reptilian/Grey, and update us in various debriefing meetings of the Reptilian/Grey agenda, as our cooperation agreement stipulates.*

*Regarding Earth people that were abducted against their will for experimentation and manipulated by the Reptilian/Grey control of their minds:*

*1.) They were helped by the AC Medical Team up to one of a variety of biospheres, a full 50% of them, 6 of them are solely "medical" biospheres, full scale hospitals if you will, for removal of the implants and the recovery... the healing of their mind, body, emotions and spirit.*

*2.) They were given a choice to remain with the Andromeda Council and their Sub-committees, or, become messengers to Earth people in their own way, or go back to their own lives with their memories intact and yet, healed of the post-traumatic abduction experiences without any side effects.*

***As to the remaining bases on the Moon.*** *"Currently, there are 3 D and 4 D people on these bases. Only benevolent beings, only good people remain on the Moon in bases that are livable, oxygen breathing areas. These remaining people primarily continue their exploration of new, 'clean' technology development & testing to benefit Earth, the Moon, and the Universe in general.*

*We have people from other star systems that volunteer to help Earth's Moon people to assist them and provide them with additional knowledge and wisdom.*

*And, Earth's Moon based people - they provide many members of the AC with information covering a wide range of topics on Earth life to provide the AC with a greater understanding about Earth life in general ==> because they, as Earth's ancestors they have keen interest in the AC's descendants on Earth. They want to better understand how to interact with the people of Earth.*

---

***From Tania, the Vice Chairwoman of the AC, and Tanka the spiritual sage & Ambassador to Earth, they told me recently,***

*“... it is with great love & eagerness on our part that our people prepare to visit Earth. We want to do everything we possibly can to ease the people of Earth into 4<sup>th</sup> dimensional life.*

*As we prepare our people, we understand we are very much your students teaching us about 3rd dimensional life... as well as us being your teachers about 4<sup>th</sup> dimensional life. This is a part of the Universal law in action...with love...we share what we have with you our relatives in this Universe. There is no lack in the Universal supply regarding the needs of all worlds that partakes of the Oneness of life as expressed by our Creator & Creation. For your world, it is a dream, a dream coming true. For us, it is about the Heavens and the Earth being reunited together again as One. We are returning to one another and we will celebrate with a Feast of Feasts together. Earth has come a long way to rejoin with our brothers and sisters of the Stars. A celebration in the Universe will be underway soon”.*

***From the commander of the primary AC biosphere, he also said: “... Earth will choose, if it wants to, to also become part of the Galactic Federation which is already within our governance & under our Council's protection, due to their overwhelming vote as part of this council to intervene... such as we did on behalf of Earth.***

*As Tolec says, you have a right to evolve on your own... to be free sovereign people.”*
