Earth in Sol Solar System

in re: Various statements by “Gosia”, “Rashell of Temmer” and “SWARUU” regarding 'pull back' plans by the "Taygetan Pleiadian Galactic Council Federation"

and: “**APPEAL OF DECISION**” written and submitted by Alfred Lambremont Webre, JD, MEd to the “The Honourable SWARUU, Commander in Chief of Federation for Earth Operations”, September 20, 2019 AD Anno Domni

Honourable Alfred L. Webre, JD, Med,

It is good to communicate with you again. This is a formal and comprehensive response from me, “**Tolec**”, as an Earth based human, and as qualified as a formally appointed and recognized representative of the Andromeda [Galactic] Council (GC) or (the “Council”), whereas I also serve as a leading, senior member on the Council's ~ **Joint Earth Sub-committee** located on the primary Council biosphere. It is the lead of twelve (12) Sol Solar system Council biospheres, as previously documented in great detail, by me, with you. It is governance 'central', the assembly hall, chambers, deliberation locale of all GC and “Galactic Federation” matters, inclusive of their advisory boards and sub-committees.

Before sharing with you the results of my communication with my primary Council contact people regarding these matters, I will first share with you for public record the specific public names of those Council people who were consulted by me, in cooperation and direct contact with Council member *Adona* of StarAncestry, [www.starancestry.com], with **3,500+** clients from **54** countries around the globe, aka "*Andromene*", a 100% clear, open, conscious, Earth human telepath woman, with whom I always check to verify specific topics, information & details, who is also the Council's: **Director**, [of the] **Interdimensional Telepathy & Communication - Observation & Advisory Board**; who is also my literal sister from planet Dakote', Taygeta star system, located in the Pleiades open star cluster.

Therefore, please know, the following consulted Council members regarding this matter are as follows, in order of priority, Council:

- * Chairman Dakkra
- * Vice-Chairwoman Tania
- * Ambassador Tanka
- * Head of Defense Nahiska
- * Chief Medical Officer Azar [for all twelve (12) Council biospheres]

https://www.andromedacouncil.com/Andromeda_Council_-_Biospheres.pdf

For further clarification, complete information and details about the Council, it's sub-committees & advisory boards, as well as the genesis information for the actual, Tau Ceti based "**Galactic Federation**", and the GC "**Joint Earth Council**", this can be found on this Council web page:

<https://www.andromedacouncil.com/about.html>

REQUEST OF FORMAL STATUS CONFIRMATION

The five (5) Council members listed on the prior page, each in his or her own role and responsibilities, are sad to report, and responded by saying, after they had thoroughly checked their current &/or past Council records ~ they can find **no** current files, **nor** past evidence, of any of the following alleged 'political' governance organizations, races, beings or people, functioning individually or collectively, representing or participating with the Council, its advisory boards or sub-committees, or its Galactic Federation management organization:

- 1.) "Taygetan Pleiadian Galactic Council Federation"
- 2.) "High Council of Taygeta"
- 3.) "Commander in Chief (CC) or (Head of Mission) "SWARUU" [or "Swaruu"]
- 4.) "Mission Member", "A type of Ambassador", "Rashell of Temmer"
- 5.) "Cosmic Agency" - ["representing" the "Taygetan Pleiadian Galactic Council Federation"]
- 6.) "Maria Orsic", [Rashell alleges Maria Orsic is "Taygetan"]
- 7.) "Agartha" - [an "inner Earth" people with alleged diplomatic ties to the Council]

The discovery of a complete lack of evidence, or historical data, regarding the above seven (7) entities speaks to the overall lack of substance, veracity and reliability of these matters and the claims presented by them. Further, we refute the claim that Maria Orsic is "Taygetan".

IN BRIEF, REGARDING THE FOLLOWING:

- *"...in this 2-part communication, Taygetan Head of Mission Swaruu reveals a cut-back in the Taygetan mission to Earth, based on a recent Policy decision that "Earth humans are not ready for Open Contact".*
- In the "**We formed the Vril Society**" 29:09 [minute] video, at the **9:02** minute mark, it is important to note that this alleged - "Commander in Chief of Federation for Earth Operations" "Swaruu", a channeled entity speaking through Gosia, says she, *"...does not represent Taygeta, much less the Federation, and that she only represents herself."* So, I ask the question, who is this Swaruu entity, really? Why does she feel she is authorized to speak, making statements of policy change, a 'pull back', a *change in Federation policy'* regarding contact with Earth people, when in fact she states she, *"...does not represent Taygeta, much less the Federation, and that she only represents herself."* These statements by her are contradictory, paradoxical and nonsensical. I am therefore highly concerned about the validity of her claims and assertions.
- Then, immediately after, at the **9:12** minute mark, "Rashell of Temmer", a channeled entity also speaking through Gosia, says, *"...with me, it is the opposite, I officially represent Taygeta here as a member of the High Council of Taygeta."* So, I also ask the same question, who is "Rashell of Temmer", if our people on the Council have **no** record of her. And, they also have **no** record of a *"...High Council of Taygeta, and also as a member of Taygeta before the Federation"*. As well, in the case of this entity, I am also highly concerned about the validity of her claims and assertions.
- These three (3) above items speak to the lack of veracity of anything else they claim.

FOR THE RECORD

Based on the research, current information and answers provided by the five (5) Galactic Council members:

A.) There is **no** "Taygetan Pleiadian Galactic Council Federation"

A.1) There is **no** "High Council of Taygeta"

A.2) There is the multi-dimensional: Andromeda [Galactic] Council with twelve (12) senior member star systems and their senior home worlds. There is also the: Galactic Federation, founded in the Tau Ceti star system with their senior home word of "Xeta", **140** star systems with **300** planets, and Joint Earth Council sub-committee, as well as twelve (12) other advisory boards and subcommittees, all current operational governance and management bodies.

B.) The Council, and the Galactic Federation, has **no** record of a - "Cosmic Agency" YouTube channel representing it.

B.1) There is of long standing the Andromeda [Galactic] Council web site for eight (8) plus years, and its YouTube channel with **3.2 million** views, with much of its information also cooraborated by other sources over the years. And, there are Earth people who are actual Council contactees including me, "Tolec", "Adona", "Aki-Ra" of Japan, and seven (7) other Earth people who are in various stages of awakening regarding their Earth mission responsibilities to the Council. The Council members know the names of these 7 other Earth People.

C.) The young woman, "Gosia" from "Cosmic Agency" [a literal YouTube channel], through whom "Rashell of Temmer" speaks; and that Rashell is a self proclaimed: "Ambassador ", an "...Ambassador between Taygeta and the Federation ", and a "...Taygetan/Federation Ambassador for the Earth ". This information is nonsensical because as stated by 5 leading members of the Council, there is **no**: "Taygetan Pleiadian Galactic Council Federation". They again emphatically state there is also **no**: "Taygetan High Council" or "High Council of Taygeta". And, we have **no** record of her as an "Ambassador".

C.1) I, "Tolec", as is my sister, "Adona", we are both originally from planet Dakote, one of four (4) planets of the Taygeta star system. We know the names of all 4 planets. Taygeta is one of the 7 major stars of the Pleiades, 'The Seven Sisters', of Dakota/Lakota/Nakota lore, an open major star cluster. We both have formal appointed roles on the Council. The people of planet Dakote, and the Council, inclusive of the Galactic Federation and its current Joint Earth Council... have always had a very special, close working relationship. Again, we tell you, the Council confirms there is **no**: "Taygetan Pleiadian Galactic Council Federation ", and there is **no**: "High Council of Taygeta ". If there was one in existence, we would know about it.

Also, as documented by me in various past interviews, inclusive of those with you Alfred, since 2011, and including white papers I have written, our people have also found **no** records of any "inner Earth" civilization, organic or higher-dimensional, named: "Agartha", which is on record many times as supported by the "Galactic Federation of Light", which absolutely has **no**, I repeat **no** formal diplomatic ties with the Galactic Council.

D.) The Council does acknowledge Robert having contact with certain space beings. They do not question his integrity or enthusiasm; however, they do question his level of discernment with regard to the actual entities... with which he is in communication, and their true intentions.

SUMMARY

As a last observation, Adona and I find it very curious, and quite concerning, that the name of this alleged Taygetan Head of Mission, Chief of Command (CC) SWARUU, or 'Swaruu', that as Adona identified, if you break down this word ~ you would find the following: [letter: "S", the word "WAR", and the word "UU"?, or maybe 'You'. Think about this.

In closing, and paraphrasing what Chairman Dakkra of the Council had to say, overall, about this matter:

“...Please know, all is proceeding as it should. It is true, as of today, many Earth People are what you would call 'awake and aware', ready for contact with our people, your brothers and sisters of the stars. It is true “all” Earth humans may not be ready for contact. It is also true, many are not yet awakened. This is the reality of your planet, today.

However, regardless of the number of Earth people who are awake and aware regarding the reality of our existence, we WILL stand by all People of planet Earth. We are NOT changing our policy. We are NOT withdrawing. We are NOT pulling back. We are NOT reducing our commitment to only one form of contact, only one form of communication, via what you call your Earth internet "social media".

We WILL continue to fly in your skies and be seen. We WILL continue to increase the frequency of our flights. You WILL, as we have promised, have actual visitation by our most senior diplomatic people, and soon after with many various scout craft commanders and their crew members, at the most appropriate moment, with the People of Earth, the citizens of planet Earth, not with your Earth governments, nor their agencies, agents or employees.

We are determined and committed. We WILL see to completion our standing support of the freeing of the people of planet Earth, as evidenced by our 2011 and 2012 removal and/or destruction of ALL Draco & Hydra Reptilian operated undersea and underground bases... until your complete freedom is secured from all negative ETs & other off-planet malignant forces, including “AI”, from your world.

We SUPPORT your Policy Appeal to our Council, and the Galactic Federation, for assistance within the 'Prime Directive' constraints to accomplish your stated objectives.

We, of the Galactic Council, WILL continue to keep our word to you, our brothers and sisters the People of Earth, as you finally begin your lives as free sovereign citizens... as the new Earth vibration, and your future, takes hold.”

Alfred, in closing, we of the Council support your own continued noble and committed efforts, inclusive of certain very relevant matters cited in your formal “**APPEAL OF DECISION**”. We can discuss it at length; and I will formally submit it and review it with my Council contacts.

And, again, Alfred, the Council still foresees and supports your coming role as the head diplomat for the Galactic Council from planet Earth: “**Ambassador, Regional Governance, [Earth based] Joint Earth Council**”.

cc: Adona, StarAncestry
