Re: CITIZEN HEARING
(A Public Hearing by former Members of Congress)

Dear Stephen:

I am writing to confirm my participation as member of the Board of Advisers of the Citizen Hearing, a project which I helped co-found with you.

The goals of the Citizen Hearing are: (1) to educate the general public and sitting members of Congress; (2) encourage the media toward a greater level of scrutiny and action; (3) establish the groundwork for open Congressional hearings on the same subject matter; (4) put pressure the 108th Congress to hold congressional hearings.

The purpose of the Citizen Hearing is to create a bipartisan fact finding process before six (6) former Senators and Congresspersons, who would take testimony from and question witnesses regarding their personal experience with events and evidence surrounding extraterrestrial phenomena. Testimony and reports for the Citizen Hearing would consist of qualified witnesses who have direct personal experience with events and evidence surrounding extraterrestrial phenomena and a government suppression of the facts from the public.

As a public service, the Citizen Hearing would be broadcast and/or netcast live via television, radio and the Internet, including audio-visual and written transcripts. Any coverage, full or in part, by news networks would be welcomed. The Citizen Hearing would take place in Washington, D.C., sometime during the 108th Session of the United States Congress. It would be held in a hotel ballroom laid out in such a manner as to resemble a typical congressional hearing format.

I am looking forward to helping make the Citizen Hearing a resounding success.

Sincerely yours,

Alfred Webre, J.D., M.Ed.
