

Authorization of Publication of Andromeda Council Public Finding of September 26, 2019

----- Forwarded message -----

From: TOLEC

Date: Sun, Sep 29, 2019 at 12:36 PM

To: Alfred Webre <exopolitics@exopolitics.com>, Lambremont Alfred <alfred.webre@gmail.com>

Alfred,

Hi. Thank you for your e-mail response of this weekend acknowledging the legitimacy of the information, and points of clarification, I provided to you from our five (5) primary Andromeda [Galactic] Council members/contact people ~ regarding the allegations and substance of what: Gosia channeling "Rashell of Temmer" and "Taygetan Head of Mission Swaruu" had to say about their alleged, '...pull back and abandoning open contact with the People of Earth', a decision made by the alleged "Taygetan Pleiadian Galactic Council Federation".

Please understand, prior to reading your relatively recent posts and listening in full to Gosia's 2 videos about these people their alleged entities - I had never heard of them before. And further, nothing I have said is about them is personal. Only about the information they allege. Also, Adona wanted you to know that it is likely this young woman "Gosia" may have been a client of Adona's while doing her StarAncestry work. With 3,500+ clients from 54 countries around the globe in 3 1/2 years ~ Adona told me that it is unusual, highly unusual, that a client would have higher dimensional parents from two (2) different star systems. It is so unusual, Adona said she's only seen five (5) cases like it... in 3,500 clients._____

AUTHORIZATION

Further, Adona & I are both comfortable, and fully authorize you, to make public, post the four (4) page formal response. You may publish this letter as well, should you wish.

Alfred, the Council has always been committed to establishing & ensuring that Earth People know about the Council's composition, its members & constituents, its mission, its activities on Earth and the legitimacy of how its openly functions. This was extensively revealed during many of our early conversations, especially the date & time details of the destruction of specific undersea & underground Draco & Hydra Reptilian bases from 2011 - 2012.

The Council is also committed to a high level of excellence in its work, and especially in terms of how the People of planet Earth rely on the Council's commitment to help, the veracity of its published information, and its reputation as an interdimensional governance and development body. With the gravitas of these kind of responsibilities, it takes its role, and its actions, very seriously.

IN CLOSING

Adona would like you to know, "...Our job, professionally, is to make sure that the Andromeda [Galactic] Council's commitment to Earth, and its people, is clear about our intentions. That is, that we stick with and stand by our approved joint plans of the Council, and the Galactic Federation, to see to humanity's freedom and that it be[come] a member under the protection umbrella of the Council."

Alfred, should you have any further questions, please feel free to ask.
kind regards,

cc: Adona, StarAncestry aka "Andromene", Director, Galactic Council's ~ Interdimensional Telepathy & Communication, Observation & Advisory Board
