Pfizer RNA vaccine will cause the destruction of the crystal structure in proteins, and violation of Wave Optics in proteins, thus transforming proteins into prions, as it was in the “mad cow disease” in Britain (BSE - Bovine Spongiform Encephalopathy) in 1980s and 1990s. The human equivalent is Creutzfeldt-Jacob disease (vCJD), or, in other words, the “the mad man disease”. The Pfizer vaccination will result in the Zombi Apocalypse. The incubation period is 8 years. Those people who are vaccinated now, will get their proteins transformed into prions exactly for the next financial crisis in ten years, that is, the “great reset”.

COVID-19 RNA Based Vaccines and the Risk of Prion Disease¹¹

Citation: Classen JB. COVID-19 RNA Based Vaccines and the Risk of Prion Disease. *Microbiol Infect Dis.* 2021; 5(1): 1-3. Research Article ABSTRACT Development of new vaccine technology has been plagued with problems in the past. The current RNA based SARS-CoV-2 vaccines were approved in the US using an emergency order without extensive long term safety testing. In this paper the Pfizer COVID-19 vaccine was evaluated for the potential to induce prion-based disease in vaccine recipients.

The RNA sequence of the vaccine as well as the spike protein target interaction were analyzed for the potential to convert intracellular RNA binding proteins TAR DNA binding protein (TDP-43) and Fused in Sarcoma (FUS) into their pathologic prion conformations. The results indicate that the vaccine RNA has specific sequences that may induce TDP-43 and FUS to fold into their pathologic prion conformations. In the current analysis a total of sixteen UG tandem repeats (ΨGΨG) were identified and additional UG (ΨG) rich sequences were identified. Two GGΨA sequences were found. Potential G Quadruplex sequences are possibly present but a more sophisticated computer program is needed to verify these. Furthermore, the spike protein, created by the translation of the vaccine RNA, binds angiotensin converting enzyme 2 (ACE2), a zinc containing enzyme. This interaction has the potential to increase intracellular zinc. Zinc ions have been shown to cause the transformation of TDP-43 to its pathologic prion configuration.

The folding of TDP-43 and FUS into their pathologic prion conformations is known to cause ALS, front temporal lobar degeneration, Alzheimer's disease and other neurological degenerative diseases. The enclosed finding as well as additional potential risks leads the author to believe that regulatory approval of the RNA based vaccines for SARS-CoV-2 was premature and that the vaccine may cause much more harm than benefit. <https://scivisionpub.com/pdfs/covid19-rna-based-vaccines-and-the-risk-of-prion-disease-1503.pdf>

BOMBSHELL: Gates Foundation, DARPA funding self-replicating, weaponized vaccine technology that began under Apartheid, to exterminate Blacks... and now it's powering the covid vax. <https://www.afinalwarning.com/516747.html>

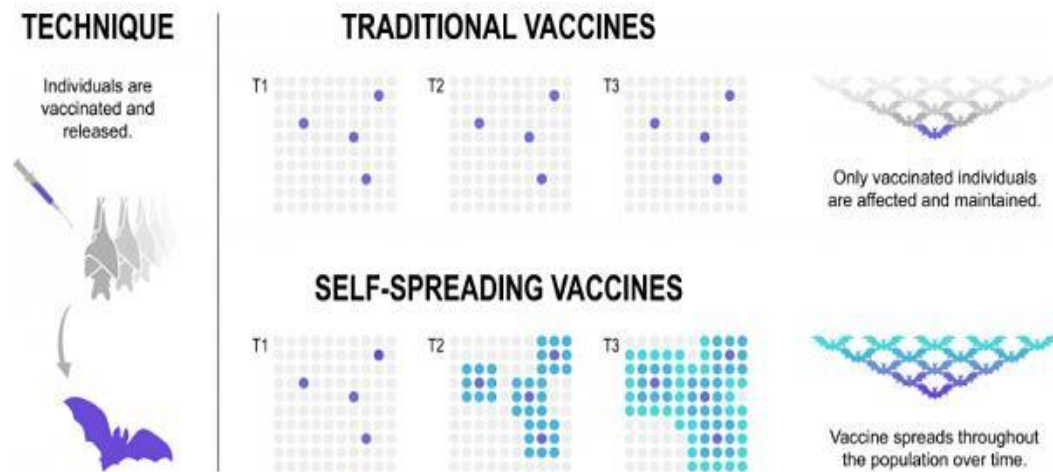

([Natural News](#)) Bombshell story synopsis: Research on race-specific, self-replicating (self-spreading), weaponized vaccines was being conducted by doctors and scientists under the Apartheid regime in the 1990s, with the goal of causing self-spreading infertility and deaths among Blacks.

- This same research continues today, predominantly in the United States, funded by DARPA and the Gates Foundation.
- The technology, known as “self-replicating vaccines,” spreads through the population like a virus, causing the spread of infertility and death, all for the purpose of extermination and population reduction.
- This same technology is now believed to be behind covid-19 vaccines, which are transmitting harmful spike proteins to the unvaccinated, causing widespread bleeding, bruising, blood clots and other harmful effects, **even in the unvaccinated.**
- Proponents of self-replicating vaccine technology are self-avowed depopulation advocates who wish to exterminate most of the human beings living today.

In 2020, the Bulletin of the Atomic Scientists published a well-researched article documenting the history of selfspreading vaccines, warning about its implications for humanity. Such technology is prone to “unintended consequences” and cannot be undone, warns The Bulletin in this article entitled, “[Scientists are working on vaccines that spread like a disease. What could possibly go wrong?](#)”

That article documents the horrifying history of our self-replicating, race-specific weaponized “vaccines” were under development by the Apartheid regime to exterminate Blacks and keep the White racist regime in power.

A diagram of how a self-spreading vaccine could spread among bats. "Founder" bats inoculated with a self-spreading vaccine passively spread the vaccine to other bats they encounter over time, gradually building up population-level immunity. Credit: Derek Caetano-Anollés.

The article is outstanding and is extensively quoted below. The authors are Filippa Lentzos and Guy Reeves, both Europeans, which explains why they are able to publish dangerous truths that no American journalist would dare utter, out of fear of retribution from the tyrannical medical science establishment that now controls nearly every institution in the United States. For the record, these two authors are not asserting in their article that covid-19 vaccines are self-replicating vaccines. That's a connection that we have only been able to make recently, after witnessing the explosion of bizarre symptoms emerging in **unvaccinated** people who are merely in close proximity to the vaccinated. Over the last two weeks, thousands of reports of this phenomenon have been received by the top whistleblowers and front line doctors who are sounding the alarm over the experimental "vaccine" injections being aggressively, coercively pushed in the United States, despite the complete lack of any credible evidence that shows such vaccines are safe and effective for widespread, long-term use in healthy, asymptomatic individuals. From the Bulletin article (selected passages, edited for length):

- A small, but growing number of scientists think it's possible to exploit the self-propagating properties of viruses and use them to spread immunity instead of disease.
- For at least 20 years, scientists have been experimenting with such self-spreading vaccines, work that continues to this day, and which has gained the attention of the US military.
- The biologists Scott Nuismer and James Bull generated fresh media attention to self-spreading vaccines over the summer after publishing an article in the journal *Nature Ecology & Evolution*.
- Once released, scientists will no longer be in control of the virus. It could mutate, as viruses naturally do. It may jump species. It will cross borders. There will be unexpected outcomes and unintended consequences. There always are.
- Self-spreading vaccines are essentially genetically engineered viruses designed to move through populations in the same way as infectious diseases, but rather than causing disease, they confer protection. Built on the chassis of a benign virus, the vaccines have genetic material from a pathogen added to them that stimulates the creation of antibodies or white blood cells in "infected" hosts.
- The idea, essentially, is to vaccinate a small proportion of a population through direct inoculation. These so-called founders will then passively spread the

vaccine to other animals they encounter either by touch, sex, nursing, or breathing the same air. Gradually, these interactions could build up population-level immunity.

- The principal security concern is that of dual-use. In essence, this means that the same research that is used to develop self-spreading vaccines to prevent disease, could also be used to deliberately cause harm. You could, for instance, engineer triggers into a virus that cause immune system failures in infected people or animals, a bit like HIV does naturally. Or you could create triggers in a virus that cause a harmful autoimmune response, where the body starts attacking its own healthy cells and tissues.
- The bioweapon question. While researchers may intend to make self-spreading vaccines, others could repurpose their science and develop biological weapons. Such a self-spreading weapon may prove uncontrollable and irreversible.
- Codenamed Project Coast, South Africa's program was primarily focused on covert assassination weapons for use against individuals deemed a threat to the racist apartheid government. One of Project Coast's research projects aimed at developing a human anti-fertility vaccine.
- The idea took hold during a time of widespread concern over worldwide population explosion. Schalk Van Rensburg, who oversaw fertility-related work at a Project Coast laboratory, told South Africa's post-apartheid Truth and Reconciliation Commission...
- Van Rensburg and Daniel Goosen, a lab director, told the Truth and Reconciliation Commission that the real intention behind the project was to selectively administer the contraceptive in secret to unwitting Black South African women.
- It doesn't take a massive leap of the imagination to see how the aims of South Africa's anti-fertility vaccine project would have benefited from research into self-spreading vaccines, particularly if you combine it with current developments in pharmacogenomics, drug development, and personalized medicine. Taken together, these strands of research could help enable ultra-targeted biological warfare.
- Self-spreading vaccine research is a small but growing field. At the moment, about 10 institutions are doing significant work in the area. These laboratories are primarily located in the United States, but some are in Europe and Australia, as well. As the field expands, so does the potential for abuse.

So far research has primarily been bankrolled by US government science and health funders like the National Science Foundation, the National Institutes of Health, and the Department of Health and Human Services. **Private organizations like the Gates Foundation and academic institutions have also financed projects.**

Recently, the Defense Advanced Research Projects Agency (DARPA), sometimes thought of as the US military's research and development wing, has gotten involved in the research. The University of California, Davis, for example, is working on a DARPA administered project called Prediction of Spillover Potential and Interventional En Masse Animal Vaccination to Prevent Emerging Pathogen Threats in Current and Future Zones of US Military Operation. According to a pamphlet, the project is "creating the world's first prototype of a self-disseminating vaccine designed to induce a high level of herd immunity (wildlife population level protection) against Lassa virus ... and Ebola."

Learn the shocking truth about how covid-19 vaccines are deliberately designed as biological weapons to exterminate human populations... and why they're being pushed so aggressively before the death wave becomes undeniable.

I cover this bombshell breaking story in three podcasts below: A short, medium and long version of this information.

- Here's the shortest version, a **10-minute summary** and introduction to Project Coast and the weaponization of self replicating vaccines:

1. If a man who was not vaccinated touches a vaccinated woman, or breathes any of the air she breathes, (in other words, walks by her in the office) and he then has sex with his wife, his wife can have an adverse event and she should avoid having children.
2. If a woman who was never vaccinated gets exposed to a woman who was vaccinated, she can:
 - A: miscarry,
 - B: spontaneously abort,
 - C. poison a baby via her breast milk
 - D: Have babies that have cognitive difficulties.

5 Doctors Agree COVID-19 Injections are Bioweapons

Comments by Brian Shilhavy
Editor, Health Impact News

Ever since reports have surfaced in recent days that people who have chosen NOT to receive the experimental COVID-19 shots but have been exposed to those who have received them, and have suffered what appear to be infections coming from these fully “vaccinated” people, affecting mainly women who have reported menstruation difficulties, heavy bleeding, miscarriages, and reduction of breast milk, I have been watching my newsfeed to see if any of the dissenting doctors and scientists we feature regularly here at **Health Impact News** would address these issues. Fortunately, a team of 5 doctors in the U.S., all of whom we have featured in the past here at **Health Impact News** and are highly qualified to address this topic, just held a round-table discussion a couple of days ago to address these issues. The issues they discuss affect ALL of us in the U.S. (and around the world) right now, and it is imperative that you take 79 minutes of your time to watch this video.

Not only do these highly qualified doctors discuss why they think this is happening, they also give practical advice at the end about what we can be doing right now to protect ourselves and stop this attack on the human race by the Globalists seeking to reduce the world’s population. Every single one of these doctors believe that these shots are NOT vaccines, but bioweapons designed to kill human beings. Whatever else you are doing when you come across this video, it is highly unlikely that anything else you do the rest of your day will be more important than watching this video so you can be informed of the evil effects of these injections that are being censored in the corporate media and Big Tech social media. Then share this video with as many people as you can.

This is from our [Bitchute channel](#), and it will also be available on our [Rumble channel](#).

• **FINDING:** “Stay Away From The Vaxxed, It Is Official, From Pfizer’s Own Documents”

“Pfizer’s own documents state both inhalation and skin contact will transmit whatever is in the vax from the vaccinated to the unvaccinated.”

Here is what just this small portion of this Pfizer document is saying:

1. If a man who was not vaccinated touches a vaccinated woman, or breathes any of the air she breathes, (in other words, walks by her in the office) and he then has sex with his wife, his wife can have an adverse event and she should avoid having children.
2. If a woman who was never vaccinated gets exposed to a woman who was vaccinated, she can:
 - A: miscarry,
 - B: spontaneously abort,
 - C. poison a baby via her breast milk
 - D: Have babies that have cognitive difficulties.

This is universal, and very bad. Here is a small section of text I translated to English:
8.3.5.3. Occupational Exposure

“An occupational exposure occurs when a person receives unplanned direct contact with a vaccine test subject, which may or may not lead to the occurrence of an

adverse event. These people may include health care providers, family members, and other people who are around the trial participant.

When such exposures happen, the investigator must report them to Pfizer safety within 24 hours of becoming aware of when they happened, regardless of whether or not there is an associated secondary adverse event. This must be reported using the vaccine secondary adverse event report form. Since the information does not pertain to a participant involved in the study, the information will be kept separate from the study.”

TO CLARIFY: Vaccine study participants become super spreaders of something, they don't say what it is, but it triggers secondary adverse events in people that never had the vax, when they are exposed to people who did have the vax. This is so bad that right here, in this little bit of quoted text, it warns that un-vaccinated men who have been exposed to a woman who was vaxxed will then pass whatever is in the vax to another woman.

11 <https://tapnewswire.com/2021/04/stay-away-from-the-vaxxed-it-is-official-from-pfizers-own-documents/>

Even the relatively small portion of the document I have put below here says the vax triggers spontaneous abortions and reproductive problems when un-vaccinated people are exposed to the vaccinated and that breast milk from a vaccinated mom can harm the infant. And if anyone does not believe it, then click the link above and wade through that enormous and intentionally confusing document. **It's for real folks, the vax is indeed the kill shot. Do not permit the vaccinated to come anywhere near you, it is now official.**

Here is a small portion of this huge document, straight from Pfizer:

Terms: Study intervention – A vaccine test subject.

AE – Adverse event in someone who got the vax.

SAE: An adverse event in someone who was exposed to someone who got the vax.

EDP: Exposure during pregnancy

8.3.5. Exposure During Pregnancy - EDP or Breastfeeding, and Occupational Exposure Exposure to the study intervention under study during pregnancy or breastfeeding and occupational exposure are reportable to Pfizer Safety within 24 hours of investigator awareness.

8.3.5.1. Exposure During Pregnancy An EDP occurs if:

* A female participant is found to be pregnant while receiving or after discontinuing study intervention.

* A male participant who is receiving or has discontinued study intervention exposes a female partner prior to or around the time of conception.

* A female is found to be pregnant while being exposed or having been exposed to study intervention due to environmental exposure. Below are examples of environmental exposure during pregnancy:

* A female family member or healthcare provider reports that she is pregnant after having been exposed to the study intervention by inhalation or skin contact.

* A male family member or healthcare provider who has been exposed to the study intervention by inhalation or skin contact then exposes his female partner prior to or around the time of conception.

If this vax is not shedding into other people, why would contact between vaccinated and unvaccinated be an event worth noting? If this vax is not shedding, then WHY does a guy who has been around a vaccinated woman, even if he did not touch her or have sex, need to worry about getting a different woman pregnant?

That's not all, the following is detailed, and far worse.

The investigator must report EDP to Pfizer Safety within 24 hours of the investigator's awareness, irrespective of whether an SAE has occurred.

The initial information submitted should include the anticipated date of delivery (see below for information related to termination of pregnancy).

* If EDP occurs in a participant or a participant's partner, the investigator must report this information to Pfizer Safety on the Vaccine SAE Report Form and an EDP Supplemental Form, regardless of whether an SAE has occurred.

Details of the pregnancy will be collected after the start of study intervention and until 6 months after the last dose of study intervention.

* If EDP occurs in the setting of environmental exposure, the investigator must report information to Pfizer Safety using the Vaccine SAE Report Form and EDP Supplemental Form. Since the exposure information does not pertain to the participant enrolled in the study, the information is not recorded on a CRF; however, a copy of the completed Vaccine SAE Report Form is maintained in the investigator site file. Follow-up is conducted to obtain general information on the pregnancy and its outcome for all EDP reports with an unknown outcome. The investigator will follow the pregnancy until completion (or until pregnancy termination) and notify Pfizer Safety of the outcome as a follow-up to the initial EDP Supplemental Form.

In the case of a live birth, the structural integrity of the neonate can be assessed at the time of birth. In the event of a termination, the reason(s) for termination should be specified and, if clinically possible, the structural integrity of the terminated fetus should be assessed by gross visual inspection (unless preprocedure test findings are conclusive for a congenital anomaly and the findings are reported). Abnormal pregnancy outcomes are considered SAEs.

If the outcome of the pregnancy meets the criteria for an SAE (i.e., ectopic pregnancy, spontaneous abortion, intrauterine fetal demise, neonatal death, or congenital anomaly), the investigator should follow the procedures for reporting SAEs.

Additional information about pregnancy outcomes that are reported to Pfizer Safety as SAEs follows:

* Spontaneous abortion including miscarriage and missed abortion;

* Neonatal deaths that occur within 1 month of birth should be reported, without regard to causality, as SAEs. In addition, infant deaths after 1 month should be reported as SAEs when the investigator assesses the infant death as related or possibly related to exposure to the study intervention. Additional information regarding the EDP may be requested by the sponsor. Further follow-up of birth outcomes will be handled on a case-by-case basis (e.g., follow-up on preterm infants to identify developmental delays). In the case of paternal exposure, the investigator will provide the participant with the Pregnant Partner Release of Information Form to deliver to his partner. The investigator must document in the source documents that the participant was given the Pregnant Partner Release of Information Form to provide to his partner.

8.3.5.2. Exposure During Breastfeeding An exposure during breastfeeding occurs if:

* A female participant is found to be breastfeeding while receiving or after discontinuing study intervention.

* A female is found to be breastfeeding while being exposed or having been exposed to study intervention (i.e., environmental exposure).

An example of environmental exposure during breastfeeding is a female family member or healthcare provider who reports that she is breastfeeding after having been exposed to the study intervention by inhalation or skin contact.

The investigator must report exposure during breastfeeding to Pfizer Safety within 24 hours of the investigator's awareness, irrespective of whether an SAE has occurred. The information must be reported using the Vaccine SAE Report Form. When exposure during breastfeeding occurs in the setting of environmental exposure, the exposure information does not pertain to the participant enrolled in the study, so the information is not recorded on a CRF. However, a copy of the completed Vaccine SAE Report Form is maintained in the investigator site file. An exposure during breastfeeding report is not created when a Pfizer drug specifically approved for use in breastfeeding women (e.g., vitamins) is administered in accord with authorized use. However, if the infant experiences an SAE associated with such a drug, the SAE is reported together with the exposure during breastfeeding. Here's the clear part of this, that everyone can understand:

8.3.5.3. Occupational Exposure An occupational exposure occurs when a person receives unplanned direct contact with the study intervention, which may or may not lead to the occurrence of an AE. Such persons may include healthcare providers, family members, and other roles that are involved in the trial participant's care. The investigator must report occupational exposure to Pfizer Safety within 24 hours of the investigator's awareness, regardless of whether there is an associated SAE. The information must be reported using the Vaccine SAE Report Form. Since the information does not pertain to a participant enrolled in the study, the information is not recorded on a CRF; however, a copy of the completed Vaccine SAE Report Form is maintained in the investigator site file.

I will translate that to English:

An occupational exposure occurs when a person receives unplanned direct contact with a vaccine test subject, which may or may not lead to the occurrence of an adverse event. These people may include health care providers, family members, and other people who are around the trial participant. When such exposures happen, the investigator must report them to Pfizer safety within 24 hours of becoming aware of when they happened, regardless of whether or not there is an associated secondary adverse event. This must be reported using the vaccine secondary adverse event report form. Since the information does not pertain to a participant involved in the study, the information will be kept separate from the study.

Why Would Anyone Choose to Receive an Experimental COVID mRNA Injection? <https://medicalkidnap.com/2021/01/27/why-would-anyone-choose-to-receive-an-experimental-covid-mrna-injection/>
by Brian Shilhavy, Editor, Health Impact News

SUMMARY: The headlines and subject matter of our articles the past couple of weeks have been very somber, documenting how serious injuries and deaths are happening just shortly after people have been injected with one of the two experimental mRNA COVID injections by either Pfizer, or Moderna.

Big Pharma, the U.S. Government, and the Pharma controlled media continue to try and downplay these deaths and injuries, denying that they have any relationship to receiving these COVID injections. However, the evidence that we have presented here at Health Impact News, paints a very different picture, suggesting that this issue is far more serious than the corporate media, and even most in the alternative media, are reporting.

So this begs the question: Why would anyone choose to receive one of these injections in the first place? Most people who have received one of these injections, or plan to receive one, would probably answer something like: “To prevent me from getting the COVID-19 virus, or prevent me from spreading it to others.”

For those of us trying to shine truth and light into darkness and deception, I really think this is where the conversation needs to begin. For those who are less informed and simply have a religious-like faith in vaccines in general, and the experimental COVID injections specifically, without ever having spent much time actually researching them, we need to stop defending what we have learned, and instead ask them to defend their faith in these shots, and then be prepared to answer their positive beliefs in these shots with verifiable facts that they can look up and research themselves. What Does the FDA Say About the Experimental COVID Shots? So let’s begin with what the official FDA guidelines, published on the FDA government website, state as facts regarding these injections.

For the “Pfizer-BioNTech COVID-19 Vaccine” you can find the FDA’s *Fact Sheet for Healthcare Providers Administering Vaccine* and the *Fact Sheet for Recipients and Caregivers* on the FDA website here.

<https://www.fda.gov/emergency-preparedness-and-response/coronavirus-disease-2019-covid-19/pfizer-biontech-covid-19-vaccine>

For the “Moderna COVID-19 Vaccine” you can find the FDA’s *Fact Sheet for Healthcare Providers Administering Vaccine* and the *Fact Sheet for Recipients and Caregivers* on the FDA website here. <https://www.fda.gov/emergency-preparedness-and-response/coronavirus-disease-2019-covid-19/moderna-covid-19-vaccine>

Fact #1 – These “vaccines” are NOT approved by the FDA.

FDA Pfizer Fact Sheet: <https://www.fda.gov/media/144414/download>

- There is no U.S. Food and Drug Administration (FDA) approved vaccine to prevent COVID-19.
- The Pfizer-BioNTech COVID-19 Vaccine is an unapproved vaccine that may prevent COVID-19. There is no FDA-approved vaccine to prevent COVID-19.
- HAS THE PFIZER-BIONTECH COVID-19 VACCINE BEEN USED BEFORE?
- The PfizerBioNTech COVID-19 Vaccine is an unapproved vaccine.

FDA Moderna Fact Sheet: <https://www.fda.gov/media/144638/download>

- There is no U.S. Food and Drug Administration (FDA) approved vaccine to prevent COVID-19.

- The Moderna COVID-19 Vaccine is an unapproved vaccine that may prevent COVID-19. There is no FDA-approved vaccine to prevent COVID-19.
- HAS THE MODERNA COVID-19 VACCINE BEEN USED BEFORE?
- The Moderna COVID-19 Vaccine is an unapproved vaccine.

Fact #2 – Risks to these Unapproved Vaccines are UNKNOWN

FDA Pfizer Fact Sheet, <https://www.fda.gov/media/144414/download>

after giving a list of possible side effects, then states:

- These may not be all the possible side effects of the Pfizer-BioNTech COVID-19 Vaccine. Serious and unexpected side effects may occur. Pfizer-BioNTech COVID-19 Vaccine is still being studied in clinical trials.

FDA Moderna Fact Sheet, <https://www.fda.gov/media/144638/download>

after giving a list of possible side effects, then states:

- These may not be all the possible side effects of the Moderna COVID-19 Vaccine. Serious and unexpected side effects may occur. The Moderna COVID-19 Vaccine is still being studied in clinical trials.

Fact #3 – Efficacy in preventing COVID-19 is UNKNOWN

FDA Pfizer Fact Sheet: <https://www.fda.gov/media/144414/download>

The Pfizer-BioNTech COVID-19 Vaccine is an unapproved vaccine that may prevent COVID-19. The Pfizer-BioNTech COVID-19 Vaccine may not protect everyone.

In an ongoing clinical trial, the Pfizer-BioNTech COVID-19 Vaccine has been shown to prevent COVID-19 following 2 doses given 3 weeks apart. The duration of protection against COVID-19 is currently unknown.

FDA Moderna Fact Sheet: <https://www.fda.gov/media/144638/download>

The Moderna COVID-19 Vaccine is an unapproved vaccine that may prevent COVID-19. The Moderna COVID-19 Vaccine may not protect everyone.

In an ongoing clinical trial, the Moderna COVID-19 Vaccine has been shown to prevent COVID-19 following 2 doses given 1 month apart. The duration of protection against COVID-19 is currently unknown.

What do Dissenting Doctors and Scientists Say about the Experimental, Non-FDA Approved COVID mRNA “Vaccines”? When you purchase something online, do you read reviews of the product first, to find out what people say about that product, both positive and negative?

If you make a major purchase, such as purchasing a home or car, do you research all the positive and potential negative data that is available about this major purchase, prior to making a decision? Or do you just accept the marketing sales data about that product at face value without researching to see if their claims are accurate, including possibly searching to see if any complaints have been logged against the manufacturer with places like the Better Business Bureau, etc.?

When dealing with a biological agent that is injected into your body with potential far-reaching effects on your health, would you not want to do the same thing, and to hear dissenting views as well as the “marketing sales data” that Big Pharma is presenting? When it comes to vaccines in general, and the experimental mRNA COVID injections in particular; Big Pharma, the U.S. Government health agencies, and their corporate media outlets do not believe that you have a right to hear

dissenting views, because they believe they are the only authority when it comes to matters of “public health.” <https://created4health.org/the-authority-to-heal/>

As a result, those with dissenting views, which many times include whistleblowers who used to work for Big Pharma, are heavily censored, and if the information gets out past their censorship, then those doctors and scientists are slandered and called “quacks” or “fringe doctors,” etc. Any product that cannot handle criticism to the point that significant finances and resources are spent trying to censor any negative information about those products, should raise red flags.

The facts I am presenting here are the facts that highly credentialed and intelligent doctors and scientists do not believe that these experimental mRNA injections should be tested on the public. What they actually say is their opinion. But the doctors and scientists who work for the FDA, almost all of whom are financially connected to Big Pharma, also are offering their opinions when they recommend that a non-FDA approved biological injection should be given “emergency use authorization” due to a “pandemic” that is now over a year old, with no end in sight.

Dr. Lee is a world-renowned expert on DNA sequencing-based diagnostics. He has trained and taught in some of the world’s most prestigious institutions and has published scores of scientific articles in peer-reviewed journals. He recognized very early on that the PCR tests and other tests fast-tracked by the FDA were not accurate in identifying SARSCoV-2 RNA, and even [sent a letter](#), back in March [2020], to Dr. Margaret Harris and Dr. Eduardo Guerrero of the World Health Organization, and Dr. Anthony Fauci at the National Institute of Allergies and Infectious Diseases of the National Institutes of Health (NIH), explaining why the tests to detect SARS-CoV-2 RNA were generating false positives and negatives. He never received a response to his letter.

As 2020 was drawing to a close and it was well-known that the FDA was preparing to issue emergency use authorizations to Pfizer and Moderna for the experimental mRNA injections, Dr. Lee filed an [ADMINISTRATIVE STAY OF ACTION](#) with the Department of Health and Human Services and the Food and Drug Administration (FDA). <http://vaccineimpact.com/wp-content/uploads/sites/5/2020/11/Stay-Pfizer-vaccine-phase-3-trial.pdf>

The **STAY OF ACTION** is based upon the faulty PCR tests that were used in the vaccine trials: <http://vaccineimpact.com/wp-content/uploads/sites/5/2020/11/Stay-Pfizer-vaccine-phase-3-trial.pdf>

Before an EUA or unrestricted license is issued for the Pfizer vaccine, or for other vaccines for which PCR results are the primary evidence of infection, all “endpoints” or COVID-19 cases used to determine vaccine efficacy in the Phase 3 or 2/3 trials should have their infection status confirmed by Sanger sequencing, given the high cycle thresholds used in some trials. High cycle thresholds, or Ct values, in RT-qPCR test results have been widely acknowledged to lead to false positives.

Read the full Stay of Action here. <http://vaccineimpact.com/wp-content/uploads/sites/5/2020/11/Stay-Pfizer-vaccine-phase-3-trial.pdf>

The FDA never even replied to this filing, let alone have their attorneys try to defend their actions. Similar to Dr. Lee’s Stay of Action filed with the FDA, Dr. Wolfgang Wodarg and Dr. Michael Yeadon filed an emergency **STAY OF ACTION** with the European Medicines Agency. http://healthimpactnews.com/wp-content/uploads/sites/2/2020/12/Wodarg_Yeadon_EMA_Petition_Pfizer_Trial_FINAL_01DEC2020_EN_unsigned_with_Exhibits.pdf

This **STAY OF ACTION** was very similar to the one filed with the FDA in the U.S. by Dr. Sin Hang Lee, and demanded that clinical trials be STOPPED until there was an accurate testing mechanism in place to correctly identify SARS-CoV-2, since the PCR test is very inaccurate. http://healthimpactnews.com/wp-content/uploads/sites/2/2020/12/Wodarg_Yeadon_EMA_Petition_Pfizer_Trial_FINAL_01DEC2020_EN_unsigned_with_Exhibits.pdf

Dr. Yeadon, the former head of Pfizer research, also went public in a viral video recording where he stated that the COVID Pandemic is over, and that it is being kept alive by false narratives using the faulty PCR tests.

In their **STAY OF ACTION** filed in Europe, one day BEFORE the U.K. issued emergency use authorization, Dr. Yeadon stated that this experimental vaccine can make females infertile. http://healthimpactnews.com/wp-content/uploads/sites/2/2020/12/Wodarg_Yeadon_EMA_Petition_Pfizer_Trial_FINAL_01DEC2020_EN_unsigned_with_Exhibits.pdf

He writes that the Pfizer COVID vaccine as well as other COVID vaccines currently in Phase III trials are: expected to induce the formation of humoral antibodies against spike proteins of SARS-CoV-2. Syncytin-1 (see Gallaher, B., “Response to CoV2019 Against Backdrop of Endogenous Retroviruses” <http://virological.org/t/response-to-ncov2019-against-backdrop-of-endogenous-retroviruses/396>), which is derived from human endogenous retroviruses (HERV) and is responsible for the development of a

placenta in mammals and humans and is therefore an essential prerequisite for a successful pregnancy, is also found in homologous form in the spike proteins of SARS viruses. There is no indication whether antibodies against spike proteins of SARS viruses would also act like anti-Syncytin-1 antibodies. However, if this were to be the case this would then also prevent the formation of a placenta which would result in vaccinated women essentially becoming infertile.

To my knowledge, Pfizer/BioNTech has yet to release any samples of written materials provided to patients, so it is unclear what, if any, information regarding (potential) fertility-specific risks caused by antibodies is included. According to section 10.4.2 of the Pfizer/BioNTech trial protocol, a woman of childbearing potential (WOCBP) is eligible to participate if she is not pregnant or breastfeeding, and is using an acceptable contraceptive method as described in the trial protocol during the intervention period (for a minimum of 28 days after the last dose of study intervention). This means that it could take a relatively long time before a noticeable number of cases of post vaccination infertility could be observed.

<https://healthimpactnews.com/2020/plandemic-full-feature-film-released-online-amidst-tremendous-opposition-and-attempts-to-censor-it/>

In a recent 2-hour live stream event called “Focus on Fauci,” Dr. David Martin explained that the current experimental mRNA COVID injections are not vaccines, but medical devices. This is not a vaccine. We need to be really clear. We’re using the term “vaccine” to sneak this thing under public health exemptions. This is not a vaccine. This is an mRNA packaged in a fat envelope, that is delivered to a cell. It is a medical device designed to stimulate the human cell into becoming a pathogen creator. It is not a vaccine. Vaccines actually are a legally defined term, and they’re a legally defined term under public health law, they’re legally defined term under the CDC and FDA standards. And a vaccine specifically has to stimulate both an

immunity within the person who is receiving it, but it also has to disrupt transmission. And that is not what this is.

They have been abundantly clear in saying that the mRNA strand that is going into the cell, it is not to stop transmission. It is a treatment. But if it was discussed as a treatment, it would not get the sympathetic ear of the public health authorities, because then people would say, well what other treatments are there? Dr. Mikovits and Dr. Tenpenny have previously stated, prior to the FDA issuing EUAs for these experimental injections, that if these experimental “vaccines” were administered to the U.S. population, that there would be at least 50 million people murdered by lethal injection.

Hundreds of Doctors Worldwide Warn Against the Experimental mRNA Injections

Dozens of doctors from around the world came together to issue a dire warning about the experimental mRNA injections, and created a video where they all testified.

Since publishing this video on our [Bitchute Channel](#) about 6 weeks ago, it has been viewed by over 375,000 people.

Can we Trust the Pharmaceutical Companies Making these “Vaccines”?

Short answer: no!

These are criminal organizations, and you can verify this for yourself by searching the Department of Justice (DOJ) website and see which group of businesses has the most cases of criminal fraud settled each year. Here is a report I have used in the past covering the years 2009 through 2016, but there may be a more recent report:

<https://www.justice.gov/opa/press-release/file/918366/download>

Health Care Fraud led the pack, with over \$19 BILLION in settlements, and no serious close competitors. <https://healthimpactnews.com/2020/criminal-pfizer-inc-wins-covid-vaccine-race-hundreds-of-millions-of-doses-expected-to-be-ready-within-weeks/>

As we have [previously reported](#), Pfizer is one of the largest criminal organizations in the world, having repeatedly paid out BILLIONS of dollars in settlements for fraud, including a 2009 settlement for fraud that they reached with the U.S. Department of

Justice for \$2.3 BILLION, the largest ever fraud settlement in the history of the DOJ at that time. (Source.) <https://www.justice.gov/opa/pr/justice-department-announces-largest-health-care-fraud-settlement-its-history>

See: [Criminal Pfizer Inc. Wins COVID Vaccine Race? Hundreds of Millions of Doses Expected to be Ready Within Weeks](https://healthimpactnews.com/2020/criminal-pfizer-inc-wins-covid-vaccine-race-hundreds-of-millions-of-doses-expected-to-be-ready-within-weeks/)

<https://healthimpactnews.com/2020/criminal-pfizer-inc-wins-covid-vaccine-race-hundreds-of-millions-of-doses-expected-to-be-ready-within-weeks/>

These are verifiable facts from the DOJ website, and these are the companies you are trusting when you get an experimental mRNA COVID injection.

Can We Trust the FDA and the CDC?

Can you trust a fox to watch your hen house?

The CDC is the largest purchaser of vaccines in the world, allocating over \$5 BILLION in their budget (supplied by American taxpayers) each year to purchase and distribute vaccines from Big Pharma.

See: [Should the CDC Oversee Vaccine Safety When They Purchase Over \\$5 Billion of Vaccines from Big Pharma?](https://healthimpactnews.com/2018/should-the-cdc-oversee-vaccine-safety-when-they-purchase-over-5-billion-of-vaccines-from-big-pharma/) <https://healthimpactnews.com/2018/should-the-cdc-oversee-vaccine-safety-when-they-purchase-over-5-billion-of-vaccines-from-big-pharma/> Do you think this might be a conflict of interest??

Secondly, the CDC owns over 56 patents on vaccines, and many of their scientists earn royalties from the sale of vaccines.

(Source.) <https://www.greenmedinfo.com/blog/examining-rfk-jrs-claim-cdc-owns-over-20-vaccine-patents>

Do you think this might be a conflict of interest??

The CDC has a long history of corruption, and over the years many of their own scientists have tried to blow the whistle on this corruption only to be silenced. See some of our previous coverage on CDC corruption:

In addition, many of the directors running the CDC go on to work for Big Pharma after they complete their term at the CDC.

See: **[Former CDC Director that Approved Gardasil Vaccine and Became Head of Merck's Vaccine Division Named "Woman of the Year"](#)**

<https://healthimpactnews.com/2018/former-cdc-director-that-approved-gardasil-vaccine-and-became-head-of-mercks-vaccine-division-named-woman-of-the-year/>

Dr. Scott Gottlieb was the former Food and Drug Administration (FDA) Commissioner. He joined the board of directors of Pfizer, Inc.—the world’s largest pharmaceutical company and second largest manufacturer of vaccines, in 2019 just shortly after he left the FDA. Pfizer, which posted total revenues of \$53.7 billion in 2018, announced Dr. Gottlieb’s election to the board on June 27, 2019. On July 22, 2020 President Trump’s “Operation Warp Speed” project awarded \$1.95 BILLION to Pfizer and BioNTech for 100 million doses of their mRNA-based COVID-19.

**So what do you think? Can we trust the CDC and the FDA?
And tell me again why you want to get injected with one of these non-FDA approved experimental injections?**

Memorize this information. Copy it, print it, save it, share it. Start your conversations with anyone thinking about getting one of these injections with a question: Why do you want to receive a non-FDA approved experimental mRNA COVID injection? Put THEM on the defensive. Listen to their answer, and then quietly, in gentleness and hopefully in love, share some REAL FACTS with them, starting with what the FDA has published regarding these injections. They probably truly believe they are doing something good for themselves and public health, but in fact they are doing something that only benefits Big Pharma and the Globalists’ agenda, which is now led by a former computer nerd and college drop-out, [Bill Gates](#).

We have much to say about this, but it is hard to explain because you are slow to learn.

In fact, though by this time you ought to be teachers, you need someone to teach you the elementary truths of God’s word all over again. You need milk, not solid food! Anyone who lives on milk, being still an infant, is not acquainted with the teaching about righteousness. But solid food is for **the mature, who by constant use have trained themselves to distinguish good from evil.** (Hebrews 5:11-14)

Note: certain words which evoke censorship have been modified intentionally to minimize the chance of restriction of speech and opinion.

Neither Pfizer-BioNTech nor Moderna has produced a product which meets the legal definition of a vaccine. If they marketed their so-called “vaccines” as what they are, Gene Therapy biological agents designed for chemotherapy ‘prophylaxis against a disease which cannot be properly diagnosed using current testing methods’, they would not be covered by the blanket immunity from financial responsibility granted to vaccine makers, marketers and merchants. Instead, the appallingly high rate of serious, life threatening and lethal impacts would expose them to huge financial risk. Vaccines are legally defined as preparations using all or part of a living organism to induce immunity, that is, protection against infection with the agent which the vaccine is made from or targeted toward.

Both of the currently deployed vaccines fail to meet that test. Pfizer admitted that chimpanzees who had received this preparation still developed clinical disease after exposure to the alleged vaccine. Moderna admits that the preparation being administered was not evaluated for the development of immunity and both of them focus only on one part of the alleged COVID-19 pathogen. This in no way results in the development of either immunity, reduction of transmission of the virus or reduction of disease. Further, it in no way results in a lessening of severity of symptoms if the disease does develop. What do these biological devices do? They serve as gene therapies, chemotherapeutic agents, for a disease that is not present in the people receiving it. Dr. Martin [above video] asks in this vitally important video how many people would volunteer to be experimented upon with gene therapy for a disease they do not have and which has a 99%+ survival rate. Would you? How about putting this agent, whose danger is just beginning to become clear, into your parents or children?

Are there, as the Russians allege, nanochips in this preparation? Is the reverse transcriptase which weaves the mRNA into your DNA harmful? deadly? carcinogenic? an infertility/sterility agent? Does it shorten lifespans? Does it cause immune dysfunction? Alzheimer’s Disease? Parkinson’s Disease? Diseases and conditions that have no name yet? All this with, under the deceptive label of a vaccine, without any liability on the part of the companies involved at all.

Step right up. Or not. How about not? Since the faux vaxx is experimental, the FDA says that you have the right to be informed about its benefits and risks and refuse it.

May 5, 2009: Top Secret Global Depopulation Meeting of World's Richest Individuals at Rockefeller Foundation

Starting with a reported meeting of eugenicists in 2009 at the Defendant Rockefeller Foundation in New York, New York, USA organized by Defendant Bill Gates and deceased co-conspirator David Rockefeller for the purpose of reducing the population of human beings to a total of One (1) billion [a figure that is double the human being population limit of 500 million human beings advocated by such eugenicists as set out in the Georgia Guide stones caused to erected by Defendants unknown, Defendants Bill Gates, the Rockefeller Foundation, the Global Business 92 (108)

Posted by Joe at 5/18/2009 4:24 PM EDTA top-secret meeting of the world's richest people to discuss the global financial crisis was held in New York on May 5, IrishCentral.com has learned exclusively. The mysterious, media-blackout meeting was called by Warren Buffett, CEO of Berkshire-Hathaway; Bill Gates, co founder of Microsoft; and David Rockefeller Jr., chairman of Rockefeller Financial Services. In addition to Gates, Buffett and Rockefeller, the attendees included Oprah Winfrey, George Soros, Ted Turner, and New York City Mayor Michael Bloomberg, among others. It was held in the President's Room at Rockefeller University in New York at 3 p.m. on that Tuesday afternoon. How so many giant figures in American life managed to interrupt and coordinate their schedules on such short notice, and meet in total secrecy in the world's media capital remains a mystery -- as does the ultimate outcome of the billionaires' conference. In their letter of invitation, Gates, Buffett and Rockefeller cited the worldwide recession and the urgent need to plan for the future. They said they wanted to hear the views of a broad range of key leaders in the financial and philanthropic fields. Each attendee was given 15 minutes to deliver a presentation on how they saw the future global economic climate, the future priorities for philanthropy, and what they felt the elite group should do. According to one of the attendees, Gates was the most-impressive speaker of the day, with Turner the most-outspoken and Warren Buffet the most-insistent on his agenda for change. Winfrey was said to be in a "listening mode." Gates was worth an estimated \$57B in 2008; more recently, Buffett clocked in at an estimated \$37B -- making them the richest Americans. Winfrey was once the world's only black billionaire, and has extensive holdings in the entertainment

Network and Chairman Peter Schwarz initiated a clandestine project Lockstep 2010 in the form of a clandestinely camouflaged public report that set out the major design and objectives of the 2020 5G/AI Coronavirus Genocide and Crimes against humanity through which the Defendants, known and unknown, are causing imminent and irreparable harm to all human beings similarly situated.

Expert witness F. William Engdahl – Expert Testimony

- Expert witness F. William Engdahl is strategic risk consultant and lecturer, he holds a degree in politics from Princeton University and is a best-selling author on oil and geopolitics. Witness Engdahl submits the following expert testimony regarding Operation Lockstep 2010 and Defendants Bill Gates, Rockefeller Foundation, Global Business Network, and Peter Schwartz (formerly a futurist with Stanford Research Institute (SRI) in the late 1970s, and then Futurist at the Shell Oil Company of the Royal Crown of the Netherlands, also Defendants herein.)
- Expert witness Engdahl states, “The report in question has the bland title, “Scenarios for the Future of Technology and International Development.” It was published in May 2010 in cooperation with the Global Business Network of futurologist Peter Schwartz. The report contains various futurist scenarios

developed by Schwartz and company. One scenario carries the intriguing title, “LOCK STEP: A world of tighter top-down government control and more authoritarian leadership, with limited innovation and growing citizen push back.” Here it gets interesting as in what some term predictive programming.”

“The Schwartz scenario states, 'In 2012, the pandemic that the world had been anticipating for years finally hit. Unlike 2009's H1N1, this new influenza strain — originating from wild geese — was extremely virulent and deadly. Even the most pandemic-prepared nations were quickly overwhelmed when the virus streaked around the world, infecting nearly 20 percent of the global population and killing 8 million in just seven months...'

He continues, 'The pandemic also had a deadly effect on economies: international mobility of both people and goods screeched to a halt, debilitating industries like tourism and breaking global supply chains. Even locally, normally bustling shops and office buildings sat empty for months, devoid of both employees and customers.’ This sounds eerily familiar.

“Then the scenario gets very interesting: 'During the pandemic, national leaders around the world flexed their authority and imposed airtight rules and restrictions, from the mandatory wearing of face masks to body- temperature checks at the entries to communal spaces like train stations and supermarkets. Even after the pandemic faded, this more authoritarian control and oversight of citizens and their activities stuck and even intensified. In order to protect themselves from the spread of increasingly global problems — from pandemics and transnational terrorism to environmental crises and rising poverty — leaders around the world took a firmer grip on power.’”

“A relevant question is whether certain bad actors, and there are some in this world, are opportunistically using the widespread fears around the COVID-19 to advance an agenda of 'lock step' top down social control, one that would include stark limits on travel, perhaps replacing of cash by 'sanitary' electronic cash, mandatory vaccination even though the long term side effects are not proven safe, unlimited surveillance and the curtailing of personal freedoms such as political protests on the excuse it will allow 'identification of people who refuse to be tested or vaccinated,' and countless other restrictions. Much of the Rockefeller 2010 scenario is already evident. Fear is never a good guide to sound reason.”

EXCERPT:

– Part 1 – 0:05 – Hello, everyone. I'm Anita Cicero, Deputy Director of the Johns Hopkins Center for Health Security. And today I will be your master of ceremonies for event 201. On behalf of our center and our partners, the World Economic Forum and the Bill and Melinda Gates Foundation, I'd like to extend a very warm welcome to our audience here in New York, as well as our larger virtual audience participating online today. – 0:31 – The goal of the event 201 exercise is to illustrate the potential consequences of a pandemic and the kinds of societal and economic challenges they would pose. The scenario also highlights the very critical role that global business and public private partnerships play in preparing for and responding to pandemics.

– 0:55 – Today's scenario is going to simulate meetings of a multi stakeholder group – 1:00 – called the pandemic emergency board. This board has been urgently convened by the World Economic Forum. And Johns Hopkins has been asked to moderate the board meetings and provide expertise during the board's deliberations. – 1:16 – The mission of the pandemic emergency board is to provide recommendations to deal with major global challenges arising in response to an unfolding pandemic. – 1:26 – The board is comprised of highly experienced leaders from business, public health and civil society. – 1:33 – The board's recommendations are aimed at top decision makers in national governments, global business and international organizations.

In this scenario, Tom Inglesby, the director of the Johns Hopkins Center for Health Security, will be chairing the board and serving as the moderator for its discussions. Today's exercise will simulate four meetings of the pandemic emergency board and each meeting will be devoted to one key topic. – 2:01 – Each meeting will start with a video and a briefing that will provide the information needed for the board members to engage. – 2:09 97(108)

– Please note, this is not a test of any particular person, organization or nation, the participants are all playing as themselves, that is senior business executives, NGO leaders and government officials. They're not expected to be pandemic experts. We've really asked them to participate based on their own expertise and their best

professional judgment. With the exception of Tom Inglesby, none of the participants know any of the details about how the exercise will unfold.

REQUIRED VIEWING! Dr. Sherri Tenpenny gives VERY important information! Hyper immune response in test animals for previous attempts at coronavirus vaccines,

like SARS and MERS, has been a persistent problem. All is well for awhile, until the animals are exposed to the wild mutated virus.

Dr. Tenpenny and other scientists have forecast that millions may die, and it will be blamed on a new strain of COVID, making an argument for even more deadly vaccines. END

The people of Sint Maarten/St.Martin are not truly free. It is the will of the Most High to free the people from the Kingdoms of Netherlands & France, who deceived the nation with the illusion of liberty & democracy, but still enforce Colonialism on Soualiga through the puppeteering of government Bodies.

This is how the Deception & illusion works:

France announced Liberty to the nation in St.Martin on 1843 & Netherlands did it on Sint Maarten in 1868. Both Kingdoms still rule & own the Island (SXM). Dutch side appointed one of it's own called a Governor to supervise and give reports to the Government & Royal Family in Netherlands. On June 2nd, 2010 Holland gave more independence & Power to our Government and Parliament to rule us with called "A Country within the Kingdom of Netherlands(Holland). The Constitution creates a deceitful Illusion of Liberty to the nation.

On June 23, 2000, a referendum (Citizen vote) was held among the population of Sint Maarten regarding the political future of the island territory. By a sufficient majority vote, the option chosen was that we would be a Country within the Kingdom of the Netherlands and withdrawal from the alliance of the Netherlands Antilles. During the initial Round Table Conference (RTC) of the Kingdom of the Netherlands on the political developments of November 2005, it was agreed that the ultimate prospect for the island territory was the status of a country within the Kingdom. The Constitution is the main reference for the constitutional law which became supreme to avoid abuse of Power by Leaders in positions of Authority.

This draft Constitution defines, guarantees & protects the fundamental Human rights of the citizens & covers the main organizations of the country. The main source for the constitutional law is based on the principles of a democratic state under the rule of law. A feature of that is the legality principle, meaning that all government action, national ordinances/orders, Laws, policies, regulations, mandates, decrees, commands, political-decisions etc. should be based on Constitutional rules & requirements. Promoting legal certainty & equality. Which relates to political decision-making, through direct participation of all citizens which the majority decides called a consultative referendum, but the protection and respect for the minorities is essential.

***Traditional fundamental Human rights are: Liberty rights to protect citizens against violations & restrictions from Government or Rulers**

Restrictions of liberty:

#Covid19/Corona tests, stay at home orders & quarantines (aka house arrest or torture) curfews, travel & border restrictions, lock-downs, face masks, social distancing, vaccinations, hospitalization, detainment, confinement with visitor restrictions, deceitful enforcement of vaccines for work, school, travel and personal needs.

If you don't get tested you can't work travel or go to school. If you don't have money you can't eat. If you can't eat you can't live. That's how they took our liberty of life.

Patients who are Hospitalized based on RT-PCR tests (which is not accurate) should not be Hospitalized & quarantined without visitation and communication against their will or Family Consent (Healthy or not).

All medicare Personal associated with Patient including Dr. Bison should be charged with Kidnapping & Murder if patient dies.

Unnecessary Lockdown

The verdict is in; lock downs do not save lives

“The Canadian Charter of Rights and Freedoms specify that severe societal restrictions must be justified by the severity of the threat and the necessity of the interventions.”

Joel Kettner (MD MSc FRCSC FRCPC)

As I drove around the city this weekend, I couldn't help but think that our government seems to be setting us up for failure. In his announcement about the lockdown, Premier Ford noted that people should not panic buy.

What do you think everyone has gone and done? The line up's are around the block, shelves are emptying again, and people are panicking. We are now entering the second lockdown of the year. Now, at the beginning of this pandemic, there was a debate as to whether the lockdown was necessary. Eight months later the verdict is in; lock downs did very little to save lives, and they were definitely not worth thousands of businesses closing and the severe economic costs. The collateral damage of these lock downs will inevitably lead to far more deaths worldwide due to the social turmoil it will cause, and the disruptions in medical care and food supplies. I would also like to mention at this point that medical professionals have reported that lock downs slow the development of herd immunity, which helps a society move past the virus. Experts are slowly coming out to speak against these rolling lock downs that are happening globally. Lock downs are now being viewed as one of the biggest medical and economic blunders of all time. Now, I am not saying that we do nothing, but these heavy-handed policies have done little to actually help those who are vulnerable to the virus. In fact, it has inflicted unnecessary suffering on the global community.

I will say this; there are more people questioning this lockdown and for good reason. Many people were early supporters of lock downs when fear and panic drowned out data and reason. Now that we are paying more attention to numbers questions are arising. The CDD currently estimated that Covid-19 has a survival rate above 99.9% for people under 65 years old. CDC also estimates that 37 to 187 children die every year from the flu. This year we have lost 105 children from the flu. Yet, we are closing down schools, which go a long way towards limiting the development of herd immunity. As many of us now, now every country has adopted extreme lockdown

measures. Sweden for example, acted on scientific advice to handle their Covid-19 spread.

They advised their citizens to take sensible social distancing steps, but didn't close their schools or small businesses. The Swedes are actually in a much better place than us in the Western world. Their actions have made them immune from the second wave, having achieved "herd immunity." Meanwhile, citizens of lockdown countries remain susceptible to the virus. It is beginning to look like these countries got it right, and we are still getting it wrong.

Experts are making a compelling case that although social distancing is an excellent way for individuals to avoid catching the virus; lock downs of the economy, and the province simply are prolonging the life of the virus. I had the opportunity to speak with Dr Joel Kettner, Manitoba's first Chief Provincial Public Health Officer. I was interested in speaking with him after his interview on CBC radio. In his interview, he made some statements that caught my attention.

"I have never seen anything like this, anything anywhere near like this. I'm not talking about the pandemic, because I've seen 30 of them, one every year. It is called influenza. And other respiratory illness viruses, we don't always know what they are. But I've never seen this reaction, and I'm trying to understand why."

I will say this. Speaking with Dr Kettner is like sitting down with the family doctor you have had for years. Our interview ended up turning into a lecture because he had so much knowledge to share. I hope that you do get an opportunity to watch the interview.

He asks the difficult questions, explains why the numbers and the reaction do not add up, and his issues with the PCR test.

Before my interview with Dr. Kettner, I read his article, "A new normal, or new abnormal? Change in direction needed on Covid-19 response." This gave me an opportunity to see what his stance was on the topic. I have always found it strange that the new Ministers of Health would not consult with the Ministers who have come before them. Our ancestral past tells us that during times of current struggle, we should turn to our elders; those who have come before us, who may know a little more than we do.

In his article, he asked some pertinent questions, ones that I think we should take into consideration. Let's take a look at some of these questions, and while you are doing so, I want you to come up with some answers for yourself.

What type of new normal do we want? Do we want the continuation of restriction of commerce, travel, recreation, and social gatherings? Do we want our children attending virtual and part-time school with forced physical distancing? Do we want to continue discouraging human interaction and mandating the covering of smiles? Should we just accept unremitting unemployment and economic hardship – especially for those in our community who are disproportionately affected by any world disaster?

Another aspect of this pandemic that Dr Kettner questions is the accuracy of the PCR

testing. For many, the science behind it is very confusing, so during our interview, Dr Kettner took the time to break it down. Some of the Western nation's leading public health experts are concerned that the standard tests are diagnosing huge numbers of people who may be carrying relatively insignificant amounts of the virus. A review by The Times found that in three sets of testing data that included cycle thresholds, compiled by officials in Massachusetts, New York and Nevada, up to 90 percent of people testing positive carried barely any virus. Dr Kettner goes into detail about the cycle threshold. Most tests set the limit at 40, a few at 37. That means that you are positive for the corona virus if the test process required up to 40 cycles, or 37, to detect the virus. When the thresholds are so high, the test may detect not just live viruses, but also genetic fragments, or leftovers from an infection that poses no particular risk. Any test with a cycle threshold about 35 is too sensitive. Virologists at the University of California believe that a reasonable cut-off would be 30 to 35, or even less.

Get this; C.D.C's own calculations suggest that it is extremely difficult to detect any live virus in a sample above a threshold of 33 cycles. So if this is the case, what standards are we using to broadcast cases each day, and it leads to the next question; are we using these false positive tests to lockdown our countries? Since we are talking about cases, let us take a look at the numbers. This is another aspect of the pandemic that Dr Kettner does not understand. He speaks strongly about putting things into perspective. In Manitoba, one per 25,000 Manitobans has died. That is less than 1% of all deaths. 20% of the ICU beds had admissions, and in a typical flu season, the majority of ICU beds are occupied with people who have a variety of viral and bacterial infections. This year, they are using up less than 1% of the ventilators.

Another aspect of this viral infection that we know is that it primarily affects older people. 80% of the deaths in Canada are in people over the age of 85, and are living in personal care homes. Based on Statistics Canada data, for every Covid-19 death, there have been 10 deaths from other causes. You see this is the thing; we have lost sight of the other common causes of premature death and their pressure on the health system, including heart disease, cancer, chronic lung disease, and other injuries. Dr Kettner believes that instead of focusing on reducing the spread of the virus, there should be risk based analysis that will help health care professionals focus on those who are part of the high risk/vulnerable part of our society. He believes we should allow more freedom for everyday life for those who are at a much lower risk. Dr Kettner has dealt with a pandemic each year for over the last 30 years. I think he might know a thing or two about how to navigate them.

There needs to be clear evidence (which there is not) regarding the benefits of this most recent lockdown. There needs to be a clear reliable model that shows how many additional lives will be saved because of this lockdown. There needs to be policies that are more balanced, practical, tolerable and fair. We, as a community, should have the freedom to make informed decisions about our health. Regardless, here we are again, going back into another lockdown, and maybe we should not be so forgiving of experts who seem to be okay with destroying people's livelihoods without strong evidence, without due process, and without consideration to how this is going to affect the world in the future. Time will tell, but Covid-19 might just go down as one of the political world & biggest, most shamefully overblown, overhyped and irrationally inflated and most flawed responses to a health matter in the world history.

3. Development of 5G in the Nordic region

Prime minister Stefan Löfven did invite prime minister colleagues Erna Solberg from Norway, Lars Løkke Rasmussen from Denmark, Juha Sipilä from Finland and Katrín Jakobsdóttir from Iceland to an annual informal Prime Minister meeting. Sweden is chairing Nordic co-operation this year and Prime Minister Stefan Löfven will host the meeting, which was held on 22–23 May in Örnköldsvik in Sweden. During the meeting the prime ministers did discuss the implementation of 5G and entered into a new in-depth collaboration on 5G. Their letter of intent clearly reveals their intentions regarding 5G and how The Swedish prime minister Stefan Löfven stated that “the Nordic region is one of the world's most innovative regions. The development of 5G is on the rise and the Nordic region must be at the forefront of that development. It creates jobs and prosperity in our countries”.

In the letter of intent one can read the following: The Nordic region is one of the most innovative and digitalised regions in the world. With our mature digital infrastructure, high level of digital skills and ambitious national strategies for digital transformation in the public and private sectors, we have the potential to take a leading role in the next leap for wireless communications. The importance of 5G was acknowledged in the Nordic-Baltic ministerial declaration Digital North that was adopted in 2017. As the development of fifth generation wireless systems (5G) breaks through, the Nordic countries will be at the forefront of that development to become world leaders in using 5G technology for the development and digitalisation of all sectors of society.

The deployment of 5G will require substantial investments as well as the appropriate regulatory framework. At political level, we commit to creating the conditions in the public sector for digitalisation and 5G to flourish. As Nordic prime ministers, we have agreed to the common vision of being the first and most integrated 5G region in the world. We want to create a common Nordic 5G space. To achieve this goal, we will cooperate closely to set up a common action plan for early adoption of 5G technology across the Nordic region.

The action plan will:

- Encourage the development of new testing facilities, including test beds;
- Ensure the technical coordination of 5G frequency bands within the region;
- Remove obstacles to expansion of the 5G network, in particular deployment of base stations and antennas; and
- Encourage and monitor the development of 5G, specifically for certain sectors: o Transport
- Sustainable and climate-efficient transport solutions

- Transport systems and connected vehicles
- Remote-controlled airborne services ('drones')
- o Mission critical communications
- Emergency services
- Law enforcement

Advanced automation in the manufacturing industry

- Augmented reality for employees
- Interconnected factories
- Robust and low latency communications, e.g. for robot control
- o Energy, environment, agriculture and aquaculture
- Energy saving measures, smart grids, power management
- Increased yield in food production
- Detailed monitoring.

The development of 5G will be monitored and followed up by the Nordic Council of Ministers, facilitating implementation in cooperation with the Nordic governments, national digital authorities, and stakeholders from the ICT and telecom industries.

We ask the Nordic digitalisation ministers to take the lead in following up this declaration with the aim of ensuring that the Nordic region becomes the first and best interconnected 5G region in the world.

Are we being brainwashed? 8 Brainwashing Techniques being used on us right now!

What if I told you that we, the citizens of the world are in an abusive relationship with our global leaders?

You will probably say, “Simone, what are you talking about? Stop it already with the conspiracy theories.” To this I say nothing that I put out is a theory. Everything that I present to our Caribbean community is fact, or words taken straight from our leaders mouths. What is interesting is that many of us don’t realize that we are in an abusive relationship because abusers use a variety of techniques in order to coerce others into behaving the way that they want, kind of like what is currently happening during this Covid-19 Plandemic. Abusers number one technique; Brainwashing.

Brainwashing is defined in the Psychology Dictionary as that which, “Manipulates and modifies a person’s emotions, attitudes, and beliefs.” When precise and strategic brainwashing is used on unexpected individuals, it has the power to reduce a person’s ability to mentally defend themselves, and makes it easier for another person to control them. Brainwashing makes it easier to control a targeted person, and makes it harder for the person to see their way free of the relationship. Now, before you jump down my throat, let me present something to you. I encourage you to do your research, but I think it is important to understand what we as a global community are going through, and why many of us are feeling the way that we feel. I would like to introduce you to the Biderman Report (Full citation, COMMUNIST COERCIVE METHODS FOR ELICITING INDIVIDUAL COMPLIANCE), created by Dr. Alfred D. Biderman M.A.

Let’s give a little background information on Dr. Albert Biderman. He was a sociologist who studied brainwashing techniques of communist governments on American prisoners of war. In 1956, he published The Biderman Report of communist coercive methods for eliciting individual compliance.

The report was presented at a combined meeting of the Section of Neurology and Psychiatry (alongside the New York Neurology Society), at The New York Academy of Medicine on November 13th, 1956 as part of a panel discussion on Communist Methods of Interrogation and Indoctrination. The report goes into brainwashing techniques used by the Chinese and North Koreans on captured American pilots and other military members. These techniques are still the core source for capture resistance training for the US Air Force.

I want to go back to the topic of being in an abusive relationship with our world leaders. The techniques presented in The Biderman Report, are not only used by the communist governments, but also by abusers who want to control their victims. What I want to present to you today are eight of the techniques used for brainwashing. What I want my intelligent media consumers to do is to compare them to what is happening right now during Covid-19. I will draw comparisons. It will allow you as the reader to see things in real time. I want you to use your deductive reasoning, and analytical skills to draw the connections that are presented. Another word of caution; not all eight elements need to be present in order for brainwashing to occur. Each element can have some power to distort reality, interfere with perception, reduce a person’s self-confidence, and garner compliance. I think you are ready. Let’s do this.

1. Isolation

Deprive individual of social support (**Quarantine, Isolation Camps, Lockdown**)

Make the individual dependent upon the captor (**Government**)

Individual develops an intense concern of self (**wear a mask, social distancing**)

2. Monopolization of Perception

Fixes all attention upon immediate predicament (**COVID-19, the pandemic**)

Frustrates all actions not consistent with compliance (**Holidays, GONE**)

Eliminate stimuli competing with those controlled by the captor (**Censorship**)

3. Induced Debility and Exhaustion

Weakens physical and mental ability to resist (**Let’s keep LCBO open**)

Individuals become worn out from tension and fear (**How are you feeling?**)

4. Threats

Cultivates anxiety and despair (**CNN, CP24, CityTV, Global News, BBC**)
Gives demand and consequences for non-compliance (**Fines**)

5. Occasional indulgences

Provides motivation for compliance (**“Things will get back to normal soon”**)
Hinders adjustment to deprivation
Creates hope for change, reduces resistance (**Pfizer’s vaccine, 90% effective**)
This keeps people unsure of what is happening

6. Demonstrate Omnipotence

Demonstrates futility of resistance (**Regardless of your protest, lockdowns**)
Shows who is in charge (**“Our health professionals know best,” Premier Ford**)
Provides positive motivation for compliance (**If we slow the curve....**)

7. Degradation

Makes resistance seem worse than compliance (**Businesses have to close**)
Creates feelings of helplessness (**Exactly how you are feeling now**)
Creates fear of freedom, dependence on captor.

8. Enforcing trivial demands

Develops habits of compliance (**Wear a mask, Social distancing**)
Demands made are illogical and contradictory (**Rules change daily**)
Rules on compliance might change
Reinforce who is in charge (**Premier Ford on television everyday**)
You know what? I am going to leave this right here. Read, and re-read this list.
Start paying attention to how you feel throughout this. I would love to know what your thoughts are, so please comment, and express. It is safe to do it here.

Kidnapping & Murder of Old People & Patients

Old People on Sint Maarten/St.Martin are being Kidnapped and Murdered by Doctors, Nurses, Health care professionals & medical staff in Hospitals and Retirement Homes. They are being neglected, quarantined, confined, vaccinated & treated against their will & family consent & also denied any form of visitation or Communication.

Here is a true story about Kidnapping and Murder by Medics

There was an Old woman from French Quarter St.Martin who was Healthy & had been examined by a family doctor a day or two prior to her arrival at the Hospital “Centre Hospitalier Louis Constant Fleming” in Concordia Saint-Martin via Ambulance for a check up of her Hip. According to **Dr. Francios Bissuel** she was tested positive for Covid-19 before arrival. She was denied visitation from Family or friends and quarantined in the hospital against her will & consent.

She kept communication with family & friends via cell phone assuring & informing them that she was Healthy, experiencing no symptoms & desired with persistent requests to go home. **Dr. Bissuel** was spreading Lies about her Symptoms and forced

her to stay at the Hospital although family informed him that she was healthy and wanted to Leave. After learning that the old woman was communicating with Family and friends with her cell, he ordered her phone to be confiscated eliminating any type of communication.

Everyday the family fought for communication & visitation but did not succeed. Several days later **Dr. Bissuel** informed the family that the Old lady was on her last breathes & hours of life. They rushed to see her for the last time and then she died in their hands. Dr Bissuel Lied to Family and friends blaming the cause of death on Covid-19. All Autopsy Requests by family was denied.

There are too much incidents of Kidnapping and Murder taking place today in Hospitals on St.Martin/Sint Maarten and all over earth. These Criminals including **Dr Francios Bissuel** from the Centre Hospitalier LC Fleming should be charged with Kidnapping, Murder & Crimes against Humanity. Justice is now Demanded.
