

ALLIANCE OF INDIGENOUS NATIONS

Welcome AIN nation member,

This is a historic moment in the development and launch of the 'Alliance of Indigenous Nations' Treaty. We have finally completed our co-operative work to refining this treaty document, after many arduous hours, contemplation and considerations.

We thank all of you who have participated on behalf of your Indigenous Nation, to work in harmony with us in order to embrace our goal and vision of a worldwide union. Our higher purpose is to recover the sacredness of Mother Earth and to once again honor Great Creator for the magnificence and brilliance of creation. Our objective is to also recognize, respect and reciprocate all people's sovereignty, our right to self-govern and self-determine.

When the people from the four directions of the world would come together, as was predicted by the 'Eagle and the Condor Prophecy', they would begin the New Earth. Our Ancestors also foretell that, 'we are the ones we've been waiting for', to usher in peace, strength, truth, love and freedom for all people in the world.

The AIN committee has affiliated with many of you over the last several months so please find the results of our articles, inner-standings and friendships as we unveil our united Indigenous treaty to the world. We feel we have embodied the essence together of our fundamental spiritual ways, customs and beliefs. It may not speak specifically for all members but it certainly carries the intent for all people.

We welcome you and many more nations to join with us in signing this treaty through the spirit and intent of 'Oneness' in purpose and our mission for the greater good.

AIN also likes to take notice of the Crown Corporation, United States Corporation, and the UN Corporation in the same light, spirit and intent of all the AIN nations.

We look forward to meeting you for our first united Indigenous day conference, a time of celebration, in the near future.

Miigwech,

Going in A Good Way

AIN Committee
