**St. Vincent Orders Jab Genocide - Tribunal Orders Cease and Desist**

**Globalist Pandemic Health Tyranny Threatens to Abandon Island Volcano Victims**

For the first time in many decades the volcano on the island of St. Vincent has exploded.

"An explosive eruption rocked La Soufriere volcano on the eastern Caribbean island of St. Vincent on Friday after the government ordered thousands to evacuate their homes nearby. Experts said the ash column rose more than 20,000 feet..." [1]

The difference this time is that the authorities are threatening to evacuate only "vaccinated" individuals.

The international Natural and Common Law Tribunal for Public Health and Justice [2], a private Tribunal of Conscience, with representatives from nations on every continent, has engaged in a process of indictment, trial and judgment against various international actors for the foreseeable harms generated by the COVID-19 Declared Pandemic and the rushed-to-market gene-altering "vaccines."

Responding to an emergency application on behalf of the population of St. Vincent the Tribunal has issued a formal Cease and Desist Order to the Government of St Vincent requiring the authorities to cease all discriminated against those who refuse the "Emergency Use Authorization" vaccines and to evacuate all victims of the volcano without regard to vaccination status.

The Tribunal expects the Government of St. Vincent to publicly announce a strong humanitarian commitment to the safety of those threatened by La Soufriere.
