Special Note: Development of 5G in the Nordic region

Prime minister Stefan Löfven did invite prime minister colleagues Erna Solberg from Norway, Lars Løkke Rasmussen from Denmark, Juha Sipilä from Finland and Katrín Jakobsdóttir from Iceland to an annual informal Prime Minister meeting. Sweden is chairing Nordic co-operation this year and Prime Minister Stefan Löfven will host the meeting, which was held on 22–23 May in Örnsköldsvik in Sweden. During the meeting the prime ministers did discuss the implementation of 5G and entered into a new in-depth collaboration on 5G. Their letter of intent clearly reveals their intentions regarding 5G and how The Swedish prime minister Stefan Löfven stated that “the Nordic region is one of the world's most innovative regions. The development of 5G is on the rise and the Nordic region must be at the forefront of that development. It creates jobs and prosperity in our countries”.

In the letter of intent one can read the following: The Nordic region is one of the most innovative and digitalised regions in the world. With our mature digital infrastructure, high level of digital skills and ambitious national strategies for digital transformation in the public and private sectors, we have the potential to take a leading role in the next leap for wireless communications. The importance of 5G was acknowledged in the Nordic-Baltic ministerial declaration Digital North that was adopted in 2017. As the development of fifth generation wireless systems (5G) breaks through, the Nordic countries will be at the forefront of that development to become world leaders in using 5G technology for the development and digitalisation of all sectors of society. The deployment of 5G will require substantial investments as well as the appropriate regulatory framework. At political level, we commit to creating the conditions in the public sector for digitalisation and 5G to flourish. As Nordic prime ministers, we have agreed to the common vision of being the first and most integrated 5G region in the world. We want to create a common Nordic 5G space. To achieve this goal, we will cooperate closely to set up a common action plan for early adoption of 5G technology across the Nordic region. The action plan will:

- Encourage the development of new testing facilities, including test beds;
- Ensure the technical coordination of 5G frequency bands within the region;
- Remove obstacles to expansion of the 5G network, in particular deployment of base stations and antennas; and
- Encourage and monitor the development of 5G, specifically for certain sectors:
 - o Transport
 - Sustainable and climate-efficient transport solutions
 - Transport systems and connected vehicles
 - Remote-controlled airborne services (‘drones’)
 - o Mission critical communications
 - Emergency services
 - Law enforcement

Advanced automation in the manufacturing industry ▪Augmented reality for employees
▪Interconnected factories ▪Robust and low latency communications, e.g. for robot control o
Energy, environment, agriculture and aquaculture ▪Energy saving measures, smart grids, power
management ▪Increased yield in food production ▪Detailed monitoring. The development of 5G
will be monitored and followed up by the Nordic Council of Ministers, facilitating
implementation in cooperation with the Nordic governments, national digital authorities, and
stakeholders from the ICT and telecom industries. We ask the Nordic digitalisation ministers to
take the lead in following up this declaration with the aim of ensuring that the Nordic region
becomes the first and best interconnected 5G region in the world.

defined as:

Article 6 Genocide For the purpose of this Statute, "genocide" means any of the following acts committed with intent to destroy, in whole or in part, a national, ethnical, racial or religious group, as such: (a) Killing members of the group; (b) Causing serious bodily or mental harm to members of the group; (c) Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part; (d) Imposing measures intended to prevent births within the group; (e) Forcibly transferring children of the group to another group.

Article 7 Crimes against humanity 1. For the purpose of this Statute, "crime against humanity" means any of the following acts when committed as part of a widespread or systematic attack

directed against any civilian population, with knowledge of the attack: (a) Murder; (b) Extermination; (c) Enslavement; (d) Deportation or forcible transfer of population; (e) Imprisonment or other severe deprivation of physical liberty in violation of fundamental rules of international law; (f) Torture; (g) Rape, sexual slavery, enforced prostitution, forced pregnancy, enforced sterilization, or any other form of sexual violence of comparable gravity; (h) Persecution against any identifiable group or collectivity on political, racial, national, ethnic, cultural, religious, gender as defined in paragraph 3, or other grounds that are universally recognized as impermissible under international law, in connection with any act referred to in this paragraph or any crime within the jurisdiction of the Court; (i) Enforced disappearance of persons; (j) The crime of apartheid; (k) Other inhumane acts of a similar character intentionally causing great suffering, or serious injury to body or to mental or physical health.

5G: Great risk for EU, U.S. and International Health! Compelling Evidence for Eight Distinct Types of Great Harm Caused by Electromagnetic Field (EMF) Exposures and the Mechanism that Causes Them

Summary: We know that there is a massive literature, providing a high level of scientific certainty, for each of eight pathophysiological effects caused by non-thermal microwave frequency EMF exposures. This is shown in from 12 to 35 reviews on each specific effect, with each review listed in Chapter 1, providing a substantial body of evidence on the existence of each effect. Such EMFs:

1. Attack our nervous systems including our brains leading to widespread neurological/neuropsychiatric effects and possibly many other effects. This nervous system attack is of great concern.
2. Attack our endocrine (that is hormonal) systems. In this context, the main things that make us functionally different from single celled creatures are our nervous system and our endocrine systems –even a simple Planaria worm needs both of these. Thus, the consequences of the disruption of these two regulatory systems is immense, such that it is a travesty to ignore these findings.
3. Produce oxidative stress and free radical damage, which have central roles in essentially all chronic diseases.
4. Attack the DNA of our cells, producing single strand and double strand breaks in cellular DNA and oxidized bases in our cellular DNA. These in turn produce cancer and also mutations in germ line cells which produce mutations in future generations.
5. Produce elevated levels of apoptosis (programmed cell death), events especially important in causing both neurodegenerative diseases and infertility.
6. Lower male and female fertility, lower sex hormones, lower libido and increased levels of spontaneous abortion and, as already stated, attack the DNA in sperm cells.
7. Produce excessive intracellular calcium $[Ca^{2+}]_i$ and excessive calcium signaling.
8. Attack the cells of our bodies to cause cancer. Such attacks are thought to act via 15 different mechanisms during cancer causation. There is also a substantial literature showing themes also cause other effects including life threatening cardiac effects (Chapter 3). In addition, substantial evidence suggests EMF causation of very early onset dementias, including Alzheimer's, digital and other types of dementias (Chapter 3); and there is evidence that EMF exposures in utero and shortly after birth can cause ADHD and autism (Chapter 5)

5G SOULUTIONS – 5G Educator Karen MacDonald on health and legal solutions to the impending 5G genocide

VANCOUVER, BC – On June 5, 2019, the very day that the Government of Canada outlined spectrum plans ahead of the planned “ultra-fast 5G internet rollout” in 2020, 2021 and 2022, Saskatoon-based 5G Educator Karen MacDonald and Vancouver, BC-based futurist Alfred Lambremont Webre, a War Crimes Judge, outlined a health and legal strategy for banning 5G in Canada with demonstrated negative health impacts on the human population and the natural environment that qualify as “genocidal” under the International Criminal Court Statute which Canada has ratified.

Municipal Health Ordinance banning 5G

This interview discusses a Canadian Municipal Health Ordinance banning deployment of 5G that can be adopted by Canadian cities and towns on public health grounds.

Mass-Deployment Of 5G Cell Towers Is Public Health Danger: Group

Wisconsin lawmakers are considering a bill that would pave the way for mass-deployment of 5G cell towers in neighborhoods.

GREENDALE, WI – Citing the dangers of a mass-deployment of 5G cell phone towers, a group of Wisconsin residents testified before state lawmakers in opposition to 5G legislation that is currently being considered by state officials.

One bill under consideration by lawmakers paves the way for the mass deployment of small 5G cell phone towers in residential neighborhoods across the state. Wisconsin for safe Technology, a community activist group, says the legislation will lead to major public health concerns.

“I urge you to put a pause on this bill. At the very least put a provision in this bill to keep 5G small cells and cell towers, for that matter, away from residential, day cares and schools. Our children are the most vulnerable and will be affected the greatest,” testified Jan Young of Muskego.

Wisconsin for safe Technology said in a statement that radiation from 5G towers is harmful to human health and the environment. They cited numerous peer-reviewed studies which have linked exposure to wireless radiation with a long list of acute and chronic health problems including cancer, DNA damage, neurological and cognitive harm, infertility and miscarriage, migraines, anxiety, [depression](#), Alzheimer's, behavior problems among others.

Elaine Unger of Greendale with Wisconsin For Safe Technology said, "There are zero studies proving 5G is safe. Zero. This bill strips us of our rights to protect our health, our privacy and our property. It also strips the rights of local government to protect us."

5G: Unseen health dangers: 5G is exceptionally harmful to children

06/03/2019 / By Ethan Huff

It's arguably the biggest existential threat to life on this planet, and it's only been around for a mere blip in time, historically speaking. We're talking about wireless communication technologies such as 5G, which a growing number of experts warns is a human health nightmare, especially for kids.

Despite its "blazing fast" speeds, 5G and its soon-to-be ubiquitous presence throughout the world will, in many ways, spell the end of life as we currently know it. Unlike 2G 3G, and even 4G, 5G functionality necessitates a massive grid of very densely-packed transmission towers and equipment, which means that exposure to it will be virtually inescapable.

"Far from a simple 'next-gen' upgrade, powerful 5G (fifth-generation) networks and technology are about to subject everyone, on a continuous basis, to unprecedented forms and amounts of ... mandatory irradiation – without prior study of the potential health impact or any assurance of safety," warns Children's Health Defense (CHD).

"Considering that young people (with their smaller body mass and developing brains) are particularly vulnerable to radiation, the Environmental Health Trust has termed 5G 'the next great unknown experiment on our children' – and the entire human population."

5G is about replacing humanity with technology

The health effects of 5G exposure are almost too numerous to list. In areas of the world where the technology has already been deployed and activated, rates of insomnia, miscarriage, memory problems, neurological disorders, and more are skyrocketing.

In Vienna, Austria, for instance, where 5G was reportedly unveiled "seemingly overnight," local residents are experiencing nosebleeds, headaches, eye pains, chest pains, nausea, vomiting, fatigue, dizziness, tinnitus, flu-like symptoms, and cardiac pain. There are also reports of people suffering from tightness and pressure in and around their heads, as well as experiencing feelings of "short, stabbing pains around the body" and a "buzzing" in their internal organs.

Both young and old are reportedly experiencing this 5G-induced trauma, though children seem to be most affected by 5G wireless radiation, which is emitted in the form of high-frequency millimeter waves (MMWs).

Swedish researchers have confirmed that “children are indeed more susceptible to the effects of EMF exposure at microwave frequencies,” adding that little ones who start using “either cordless or mobile phones regularly before age 20” have a more than 400 percent increased risk of developing a brain tumor.

5G is a deadly weapon, and people are its target

Wireless radiation is so negatively impactful that the International Association of Fire Fighters (IAFF) has been actively lobbying to keep transmission equipment off of firehouses. Since at least the days of 2G, IAFF has observed and reported that firefighters who are forced to spend time around mobile phone towers and equipment often suffer:

“... slowed reaction time, lack of focus, lack of impulse control, severe headaches, anesthesia-like sleep, sleep deprivation, depression, and tremors.”

None of this is surprising, seeing as how 5G MMWs are roughly the same as those used in crowd control weapon systems, also known as Active Denial Systems, the purpose of which is to produce “an intolerable heating sensation that causes them to flee.” Such “heating sensations” have also been reported in conjunction with exposure to 5G.

“People’s first reaction to the idea that 5G may be an existential threat to all life on Earth is usually disbelief and/or cognitive dissonance,” a whistleblower from the United Nations (U.N.) is quoted as saying.

“Once they examine the facts, however, their second reaction is often terror. We need to transcend this in order to see 5G as an opportunity to empower ourselves, take responsibility and take action.”
