The lockdowners keep telling us to pay attention to the science. That's what we are doing. When the results contradict their pro-compulsion narrative, they pretend that the studies do not exist and barrel ahead with their scary plans to disable all social functioning in the presence of a virus. Lockdowns are not science. They never have been. They are an experiment in social/political top-down management that is without precedent in cost to life and liberty.

If we do a really great job on new vaccines, health care, reproductive health services, we could lower that (human population) by perhaps 10 - 15%

A Portuguese appeals court has ruled that PCR tests are unreliable and that it is unlawful to quarantine people based solely on a PCR test.

Citing Jaafar et al. 2020, the court concludes that:

if someone is tested by PCR as positive when a threshold of 35 cycles or higher is used (as is the rule in most laboratories in Europe and the US), the probability that said person is infected is less than 3%, and the probability that said result is a false positive is 97%.

Corbett Report, November 25, 2020. James Corbett: "If you are advocating for lockdowns, you are complicit in tearing families apart. You are complicit in inflicting untold suffering on millions of people around the world. You are complicit in casting the poorest and most vulnerable in our societies into even further grinding poverty. You are complicit in murder."

A high-school science experiment eventually became law of the land through a circuitous route propelled not by science but politics.

Direct quote from D.Nabarro of the W.H.O., October 12, 2020

DAVID NABARRO: I want to say it again: we in the World Health Organization do not advocate lockdowns as a primary means of control of this virus. [. . .] We may well have a doubling of world poverty by early next year. We may well have at least a doubling of child malnutrition because children are not getting meals at school and their parents and poor families are not able to afford it. This is a terrible, ghastly global catastrophe, actually. And so we really do appeal to all world leaders: stop using lockdown as your primary control method. Develop better systems for doing it. Work together and learn from each other. But remember, lockdowns just have one consequence that you must never, ever belittle, and that is making poor people an awful lot poorer.

‘Murder by Injection: The Story of the Medical Conspiracy Against America’ by Eustace Mullins. April, 2016

I was able to document the shocking record of these cold-blooded tycoons who not only plan and carry out famines, economic depressions, revolutions and wars, but who also find their greatest profits in their manipulations of our medical care. The cynicism and malice of these conspirators is something beyond the imagination of most Americans. They deliberately mulct our people of millions of dollars each year through "charitable" organizations and then use these same organizations as key groups to bolster their Medical Monopoly. Fear and intimidation are the basic techniques by which the conspirators maintain their control over all aspects of our health care, as they ruthlessly crush any competitor who challenges their profits. As in other aspects of their "behavioural control" over the American people, their most constantly used weapon against us is their employment of federal agents and federal agencies to carry out their intrigues. The proof of this operation may be the most disturbing revelation of my work.
