#4 Environmental policy, protecting our land for use of food supply, wildlife, natural forests, agriculture, as it relates to the International Criminal Code and the United Nations Human Rights Laws.

A) Environmental policy by international leaders or corporations has direct impact on the rights of the public to uncontaminated food supply, zones in the world that protect our wildlife and natural forests sustaining required CO2 levels for humanity, as per the link attached below.

B) This can be tied to the green, smart, global cities, all linked to the common good of the earth and the good behaviour of people yet good stands for greed, genocide in the context of how it is used in public policy expenditures and capitalistic gains by conglomerates.

Use of AI, Automation, Digitalization to transform the production and operational processes of how food supply, energy supply, water supply is all being destroyed not conserved as the political elites use conservation as an act of responsibility.

IRAN 2021

Thousands of people were interrogated, unfairly prosecuted and/or arbitrarily detained solely for peacefully exercising their human rights, and hundreds remained unjustly imprisoned. Security forces unlawfully used lethal force and birdshot to crush protests. Women, LGBTI people and ethnic and religious minorities faced entrenched discrimination and violence. Legislative developments further undermined sexual and reproductive rights, the right to freedom of religion and belief, and access to the internet. Torture and other ill-treatment, including denying prisoners adequate medical care, remained widespread and systematic. Judicial punishments of floggings, amputations and blinding were imposed. The death penalty was used widely, including as a weapon of repression. Executions were carried out after unfair trials. Systemic impunity prevailed for past and ongoing crimes against humanity related to prison massacres in 1988 and other crimes under international law.

Capital punishment in Iran

Iran is believed to execute the most people per capita.[10] Iran insists that the execution numbers human rights groups allege are "exaggerated," and that executions are only carried out "after a lengthy judicial process." Iranian officials cite that they are "fighting a large-scale drug war along its eastern borders, and the increase of drug lords and dealers causes a rise in executions." According to the BBC, Iran "carries out more executions than any other country, except China".[11]

#6 NATIONAL CITIZEN'S INQUIRY

<https://nationalcitizensinquiry.ca/>

CREDIBLE / INDEPENDENT / COMPETENT

The National Citizens' Inquiry is calling on Canadians to identify individuals whom they would trust to oversee the Inquiry process in an impartial and transparent manner.

CALL FOR COMMISSIONERS IS OPEN!

Canadians may now suggest individuals for the role of NCI Commissioner, the exact number of which is to be decided shortly.

<https://nationalcitizensinquiry.ca/commission/>

Happy New Year!

<https://nationalcitizensinquiry.ca/petition2/>

Over the next few weeks, we will be sharing exciting news about the NCI's Commissioners, Hearing Schedule, and Expert witnesses!

But for the NCI to be successful, we need as many Canadians as possible to know about it! 42,389 Canadians have already signed the NCI's petition to show support for investigating Canada's COVID-19 response.

We need your help today to reach our goal of 200,000 signatures!

Please share this email OR this link with at least 2 friends and/or family members who haven't signed yet!

The more Canadians sign the petition, the greater the NCI's "moral authority" to pressure governments to provide actual transparency into their COVID-19 measures.

It also makes the Expert and impacted Canadians' testimonies much harder for politicians and the media to ignore!

We greatly appreciate your continued support and encourage you to make everyone in your community aware of this important initiative!
